

## You Were the One

You were the one to outrun the sun  
Racin' that chariot across the sky  
You were the one to sing with the sea  
Playin' those waves in every key

You were the one to flower the fields  
Each step they sprang up at your heels  
You were the one who said when it's done  
I've barely begun but I have won

You were the one to paint with the stars  
Tracing each line to light the dark  
You were the one to dance with the rain  
You taught it to dip and drip and sway

You were the one to wake up the wind  
Born of the breath you had within  
And you were the one who set with the sun  
But lit up the moon with all you'd done

You are the light that shines in the dark  
You are the love that caught me off guard  
You are the light that shines in the dark  
You are the hope that beats in my heart
