

Jericho (Dance)

Let's get up, let's get up, let's get up and dance on the ceiling tonight
I don't care, I don't care, I don't care if you say that it isn't right
I said it, I said it, I said it then and I will say it right now
Let's get up, let's get up, let's get up and dance 'til the ceiling comes down

I'll dance, yeah, I'll dance, and the darkness won't slow me down
Yeah, I'll dance, and if the world, it stops turnin' 'round
Dance, then I'll dance now

Let's get up, let's get up, let's get up and dance 'til they say we're too loud
Keep dancin', keep dancin', keep dancin' even if soldiers surround
Let's samba, let's salsa, let's tango, foxtrot, and waltz 'round this town
Keep dancin', keep dancin', keep dancin' now 'til the walls hit the ground

You can dance when the world is ending
Here and now there is time worth spending
You can dance when the music's all shut down
Sin your own song, and do your own dance now

Let's do the dance of building homes instead of building borders
Let's do the dance of building bathrooms safe for you and ze
Let's do the dance of knowing you are more than who you sleep with
Let's do the dance of giving grace and setting addicts free

Let's do the dance of saving people from bombed out buildings
Do the dance of making men stop blaming women's clothes
Let's do the dance of slowing down and facing our own demons
Do the dance of sending food instead of sending drones

Let's do the dance of buying used and ending child labor
Do the dance of having pen pals in Somalia
Let's do the dance of stopping racism when we see it
Do the dance of loving more than just America

'Cause I learned across the sea that there's another way to be
You can dance, you can sing, when you have nothing
'Cause I learned across the sea that there's another way to be
You can dance, you can sing, life is everything
