

## Color

Let's take tonight like it's all that we've got left  
Let's take tonight like tomorrow they drop the bomb  
Let's take tonight to forget why we're fearful  
Let's take tonight like there's nothing that could go wrong

And fill this place with

*Color, color – everything you ever wanted  
Color, color – everything you ever dreamed  
Color, color – not afraid of taking chances  
Let's fill this, this place with*

*Color, color – everything you ever hoped for  
Color, color – all the words you didn't say  
Color, color – all the prayers that went unanswered  
Let's fill this, this place*

*'Cause tomorrow it's back to that same old grind  
But baby tonight can keep color in our eyes*

Let's take tonight like it's all that we've got left  
Let's take tonight like it's all that our hands can hold  
Let's take tonight to forget all our failures  
Let's take tonight to like the story's untold

Let's take tonight to go sing with a stranger  
Let's take tonight like it isn't our fault  
Let's take tonight to go dance in the streetlights  
Let's take tonight like the rules of our lives let go

And fill this place with

*Chorus*

Even the sun burnin' out is more beautiful in color than in black and white
