

Pack Your School Bag Craft Activity

Every day you need to pack your bag for school. Make sure everything you need is in your bag, draw your own items if anything has been left off this sheet.

Directions:

1. Color the backpack and school supplies.
2. Cut out the backpack.
3. Cut a slit between the two dotted lines at the top of the backpack.
4. Cut out the school supplies.
5. Glue, tape, or staple the school supplies into the back pack.

Variations:

- Tape an envelope to the back of the backpack, reuse the school supplies to pack and unpack the bag.
- Use this as a memory game to see if the child can recall what has been placed in the backpack by turning over the items or hiding them.
- Draw additional school supplies based on the individual child, have them color, cut, and add them to the backpack.
