

# WARRIOR-SCHOLAR PROJECT®

**From the Battlefield to the Classroom**

Warrior-Scholar Project Programs empower military veterans to become civic assets and leaders on both the local and national level by facilitating their success in the classroom. Although the Post 9-11 GI Bill® provides the means to pursue higher education, military veterans face a wide range of challenges as they transition from military service to school. These challenges, if not addressed, can impede their success. To help ease the transition from service to school, WSP provides free intensive and immersive college preparation academic boot camps at top tier universities for current and former service members who wish to pursue higher education. WSP empowers enlisted military veterans by helping them develop and enhance the skills and confidence necessary to achieve academic success in the classroom and become leaders on campus.
