ABOUT ME

I, being the Colorado Kid that I am, I love finding my self on the river fishing or on the trails four wheeling with my beautiful wife. When I am not enjoying the splendors of the great outdoors, I am enjoying a craft beer or snuggled up on the couch with my wife and 3 dogs watching a movie.

WHAT MAKES YOU A GREAT CARE PROVIDER?

I am a big, caring, loving man that looks to find the best in every situation. I have always had a big heart for kids, great respect and admiration for mothers and a passion for supporting fathers. I am lucky to have the privilege to help and be apart of this amazing process.

WHAT DO YOU ENJOY ABOUT THIS WORK?

The best part about doing this work is helping people that need help. I have a strong place in my heart for making situations easier for people that are struggling or needing help. Seeing the relief within a family when they have the help they need is so fulfilling and rewarding.

WHAT SETS YOU APART FROM OTHERS?

Apart from being a male care provider, I love to bring a more holistic, natural thought process in caring for mom, dad and child. I love to address the whole family when it comes to the birth and after birth process. I believe that in some cases helping dad and other siblings can provide a great relief for mom and new addition to the family.
