

MU's Spiral through the Galaxy

Where they have joined the spiral and looped us into cycles of time of the Astral time loop instead of continuing on Mu's organic timeline and spiral trajectory

The Organic timeline continues while the hikacked astral timeline plays out the negative time in reverse frequency doubling the (external) Light

Negative time in the reversing of the frequency results in the experience of time 'slowing down'

Astral Time Loop that holds the Matrix Reality and Reincarnation Program

- They can harness the 2/3 Light Frequencies and split the organic timeline so that they only experience elated Light Frequencies (the Astral Matrix timeline) pure information which can be manipulated due to the nature of the Light being external.

ATLANRA

2012 - 2017

MU's Organic Timeline

A continuous successive sequence of NOW

- It holds 2/3 Light Frequencies and 1/3 Internal Source Frequencies

The reverse frequency Astral Matrix slows down the experience of time (timelag in manifestation)
The linear or successive sequence of NOW is more instantaneos
