

LIGHT CODE INITIATIONS

THE NATURE OF REALITY

In this Matrix, each Dimension of Dreaming has frequency and can be viewed /experienced via the construct of the geometries of the MerKaBa that hold and interpret that frequency.

Mer : Counter rotating field of Light

Ka : Your Light Body, the refined matter that holds your Optimum Functioning Blueprint for whatever dimension you are attuned to (as your Ka interfaces with the physical emanation, it is the causal body that effects change and experience in the physical body and realm, it is the template for physical expression)

Ba : your Essence.

When consciously activated, it acts as a vehicle to move through Realities, experience or interpret Realities and create Realities.

ABOVE: A STAR TETRAHEDRON MERKABA IN ACTION

PERSONAL AND GROUP MERKABA

Personal is within your own sphere, a group MerKaBa can create realities in which others become part of and share.

You are in your own personal MerKaBa within a group MerKaBa of consciousness that resonates with what is called 'third dimensional reality'.

In many, that personal MerKaBa is only a seed, not yet activated and so they are at more of an effect of the group MerKaBa they are immersed and attuned within.

** activated (correctly, there is some crazy bullshit out there)

If you are locked into a type of Geometry that holds a certain Reality, then it is merely a question of disarming the locks and removing your frequency from that structure interface or geometry that is connecting with and interpreting that 'Reality'.

LIGHT CODE INITIATIONS

By changing the geometries and consciousness frequencies within the MerKaBa, you can attune to anyone of your Dimensions of Self within the Matrix construct and so experience your Reality of choice.

Of course you need to be able to retain the connection to the desired frequency and so we build /reconstruct the Etheric Structure to be able to contain and maintain the Fire and Light of the connection.

With this connection comes access to great power and much wisdom, all of which you have accumulated over your Essence's experiences since it was first projected from Source.

At the moment, most people's Etheric Structure is weak. The interface between our Physical and Etheric bodies is clogged with dirty used up old energies, implants, imprints, false ideals and limiting beliefs, parasites of all descriptions, time locks, expired and useless vows contracts and agreements, emotional vortexes, projections on and on – you get the picture?

This interference prevents us from clear, unencumbered access to the Multidimensional experience of our simultaneous multi dreaming nature, who we really are and what we are capable of.

Riding the Dragon, engaging the Body Elemental, embodying Essence and igniting the Soul Star with RAMUtet - you will 'burn' this shit up – transmute and transcend, no limitation – and fast.

Whoever creates the MerKaBa, programs the MerKaBa.
Whomever sets and programs the geometry, controls the experience of it.
MerKabas need to be 'powered', they need energy to be 'fed' and continue to be 'alive'...

DIMENSIONS

Dimensions of Dreaming are linear, horizontal, and vertical, within, without – multi directional. Each has its nuance.

DIMENSIONS OF SELF

REINCARNATION, PAST LIVES, THE HERE AND NOW,

There is only you, the original dreamer, there is only the Now.

Think of things in terms of a DVD – the DVD is your Essence's experience.

It's a matter of where are you in the DVD right now?

Which Dimension of Self is dreaming?

Are you in Ancient Egypt?

Are you a fisherman in China?

Are you off planet?

Are you unrecognisable, a nebula of stardust?

LIGHT CODE INITIATIONS

Its all YOU having an experience in consciousness, a Dimension of Self, dreaming

At the moment you are consciously aware of your Essence experiencing the epoch, space-time-continuum known as 21st century Earth.

Multidimensional conscious awareness is when you are actively aware of and participating in all this experiences at once.

Wherever you are, you affect your own Reality and are aware of your Self – all the way back to Source.

Thing of Essence as the filing cabinet and each Dimension of Self (dreaming) as file and you can have more than one file active at once.

SOURCE AND ESSENCE

Source is the Source of All that is.

Source decides to have an adventure in consciousness to explore and know Its Self.

It projects it's Self as a Beam of Light, as it moves through the dimensions and into deeper and deeper densities, it still retains a spark of its Self.

When we refer to Essence, we refer to the part of your Self all the way back to Source. The sum total of all dimensional experiences of You, the beam of Light or consciousness, originally projected from Source.

You can experience your Essence by going 'within' turning your attention to the rise and the fall of the breath in the chest. Something animates you, something is 'breathing you'. Become One with that which 'breathes you'...

TIME

Time is a program, inserted into this space-continuum-MerKaBa to give one the impression of a past, present and future, aging is another program built in as is reincarnation to explain the different experiences in consciousness.

There is only the Now, framed in the Moment, the Moment is Eternal.

Time is you choosing a new Now, every 10millionth of a second, when experienced sequentially it feels like a fluid movement – this is what we refer to when we use the word TIME.

- When something is a Truth, the experience of it has no past, no need to project into the future, only the Is, in the Now. Eternal

Something to ponder...

TIMELINES AND TIMETRACKS

Timelines are 'linear' or concurrent events that all fall together in common experience

LIGHT CODE INITIATIONS

A timetrack is some one's journey or experience within that timeline equation or Reality.

Time Travel is travelling / navigating within the Matrix reality.

MULTIDIMENSIONAL

We are a single consciousness having a multidimensional experience.

We are able to dream more than one dream reality and experience them simultaneously. (Dimensions of Self)

When the consciousness invasion happened, the Archons infiltrated our dreaming, compartmentalized our experience and we 'forgot' we were the one dreaming mind and in this unconsciousness, believing in the finality of the single experience bought the whole concept of 'Reincarnation' (Dimensions of Dreaming)

FREQUENCY V'S ENERGY

Frequency is a description of the wave form codes, energy describes the vibration it emits.

ORGANIC

A direct Source connection;

Original Creator Beings

Organic Dimension of Self, the original dreamer's expansion in consciousness to include dreaming another Reality, (often simultaneously) and this is the Self that is experiencing it. Part of Essence, you and your experience, all the way back to Source...

INORGANIC

Needs to connect through an Organic, has no direct Source connection

ARCHONS

An umbrella that represents anti-life

The inorganic **Reptoids**, formed when MU fell from the Centre of Creation in the Galaxy and her impact on the density caused the expression of inorganic 'life' to result The **Annunaki** and their **AI** influence which is the interface for the Inorganic to hitchhike The Annunaki as another version of Anthropos10 that succumbed to the transhumanity of the Archontic agenda, that is how they got into our Reality, they had base codes...

ANTHROPOS10 (SEE MYTHOS OF MU)

DNA template for organic human life

ANTHROPOS11 (SEE MYTHOS OF MU)

DNA template for organic human life developed and evolved with MU

SACRED CENTRE

A point in consciousness -the exact centre of the Self, where all else emanates from

CENTRAL SUN

LIGHT CODE INITIATIONS

From the Sacred Centre, connect with the Central Sun – just as there is a galactic central Sun, so too is your personal Central Sun.

The energy or Fire that ignites you, The energy is the fuel that then drives the adventure in consciousness

ESSENCE

YOU all the way back to Source, all your experience wisdom, all your adventures in consciousness.

It can be experienced as a combination of both the Sacred Centre and the Central Sun, only deeper, vaster and more complete

ESSENCE FREQUENCY :

The frequency is the signature.

The thing that names it, gives it structure and form, exemplifies the spark of the Essence, the thing that defines it, that identifies it.

THE ESSENCE CONTAINS THE SEED, and the seed contains all the potential.

The Seed by definition contains all within.

By accessing the codes within the Seed we can energise the optimum functioning blueprint and live our potential, without Limitation, redefining the accepted 'reality'.

RAMUTET

RaMutet - The state of ecstasy and attunement when embodying the tantra of RA and MU through the Soul star and create a physical expression of Reality.

SOUL STAR

A state or place of consciousness that when embodied feels like the Centre of Self

Connecting with the Essence of MU (her all the way back to Her Source) and the Essence of RA (the original Creator codes) and when you pull this energy into this place it ignites the embodiment of your Essence emanation

MU: the organic consciousness, originally a creator Aeon who's 'body' is our planet.

RA: the original Creator Being /Energy / Aeon of this Galaxy.

LINEAGE

Lineage is your birthright, your Soul ancestry that holds wisdom, knowledge and energies that pertain to that succession of that frequency - their collective experience becomes your experience because you are of that frequency.

ESSENCE OR SOUL LINEAGE

The Experience of you all the way back to Source.

All your incarnations, all your expressions, experience wisdom, all the 'lives' in or out of the Matrix. Eg: My Essence or Soul Lineage is that of the Sekhmets

LIGHT CODE INITIATIONS

LINEAGE

Lineage you may be a part of because you have taken initiation or become part of a collective frequency. Eg: initiated into the Lineage/teachings/frequencies of the Sekhmets

DNA BLOOD LINEAGE

The Lineage that your physical expression holds, their experience wisdom and their ancestral karmas, contracts and connections that makes up your blood, DNA, skin hair etc...

The Archons who have a monopoly on placement of Soul Lineage into DNA lineage, will often put an original Creator Being or a incarnation of a Dimension of Self of the Creator Being into a primarily inorganic or Annunaki ancestral line that feeds their agenda, fuels their hybrids and other realities and keeps the Organic original lost as to their true history and unable to see sense of feel around them who they really are...
