your own ISO branded
marketing material*

The CyberIDLock Breach Protection Plan for merchants includes:

Keystroke Encryption Software

Keylogging spyware, a leading component in SMB breaches, steals everything you type including your banking credentials, customer information, emails and other sensitive data. Keyloggers infect your PC and mobile devices when clicking on links inside emails, using social media or surfing the web. EndpointLock™ keystroke encryption software blocks spyware and keeps everything you type private.

FEATURES	BENEFITS
<ul style="list-style-type: none"> • Patented Keystroke Encryption method • Compatible with all operating systems 	<ul style="list-style-type: none"> • Guaranteed to block the capture of keystrokes on any PC or mobile device. • Unlike Anti-virus which identifies only known catalogued malware, keystroke encryption protects from zero-day (unknown) keylogging malware. • Insures privacy for emails and other sensitive information.
<ul style="list-style-type: none"> • License Key for three PC or mobile devices 	<ul style="list-style-type: none"> • For any device which accesses sensitive company and / or customer information.

Dark Web Scan

Out of the reach of regular Internet searches, lies the Dark Web, a hub for secret chat rooms, forums and black-market sites that sell or distribute illegal products and services and house compromised databases containing millions of stolen identities. Our Dark Web Scan will report if your email address has been found in one or more of these databases and we offer steps you can take to prevent further compromise.

FEATURES	BENEFITS
<ul style="list-style-type: none"> • Unlimited Free Access to our Dark Web Email Scan 	<ul style="list-style-type: none"> • Find out if your email(s) have been compromised on the Dark Web. Come back any time to scan again and check your status.
<ul style="list-style-type: none"> • Immediate Results Report tells you exactly which account(s) were found. 	<ul style="list-style-type: none"> • Helps you stay proactive and up to date on the security of your account credentials. • Provides steps you can take to protect your account credentials from being used to access other sites such as banking and credit cards.

\$500,000 Breach Reimbursement Program

\$500,000 Breach Program which will reimburse for PCI Assessments, related costs, mandatory audit fees, and/or card replacement cost, hardware & software upgrade costs, and EMV & POS costs, contractually assessed or ordered for reimbursement by the card network to a merchant as a result of a data security breach at the merchant level.
