

TASKI Jontec Destat

Static Dissipative floor cleaner.

F9b

Description

Static dissipative floor cleaner/maintainer for the maintenance of floors coated with Jontec ESD and to increase electrostatic dissipation on standard floors to reduce static discharge problems. The unique ingredient Avetran™ helps to retain moisture on the surface and thereby help to prevent static shock.

Key properties

- pH neutral
- effective detergent combination
- Fortified with Avetran™
- Dissipates electrical charges over a large surface area
- Versatile application

Benefits

- Safe to use on most water resistant hard floors and floor emulsions
- Cleans well without dulling the surface
- Reactivates the static dissipative capacity of Jontec ESD (part of ESD program)
- Reduces electrical shocks on customers and personnel created by static charges
- Can also be used directly on any water resistant hard surface and to prepare for re-coating of ESD floors

Use instructions

Dosage:

Manual:	700ml for 10l solution (7% / 1:14)
Scrubber drier:	350ml for 10l solution (3.5%)
Deep cleaning for re-coating:	700ml for 10l solution (7%)

Application:

Manual:

Wet mopping: Dose the product into a full bucket, apply the solution and remove the soiled solution.

For initial treatment: Dose the product into a bucket filled with water, apply the solution with a clean mop and allow the solution to dry.

Use Jontec Destat on Jontec ESD up to 3 times per week to ensure static dissipation. Do not rinse!

Machine:

Scrubber-drier: Dose the product into the full water tank, apply the solution and remove the soiled solution.

Deep cleaning for re-coating of Jontec ESD: Dose the product into the full water tank of a low speed single disc machine, apply the solution, scrub with a red pad and remove the soiled solution. Leave to dry completely before re-coating.

Important:

Do not use on water-sensitive floors, e.g. unsealed wood and cork.

TASKI Jontec Destat

Technical data

- Appearance: green liquid
- Relative density [20°C]: 1.03
- pH-value neat: 8.9 +/- 0.5
- pH-value in use: 8.9 at 7% dilution
- Coverage: 15-25 mls/m²

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Safe handling:

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet. For professional use only.

Storage Information:

Store in original closed containers away from extremes of temperature.

Environmental information

The surfactants used in this product are biodegradable in compliance with the requirement of EC Directives 73/404/EEC and 73/405/EEC and their subsequent amendments.
