Introduction

Through my Sacrament(s) I have gained a Religious and Spiritual Understanding with our Source that many call God. Sumerians called Source "Shamas"

Through this understanding and relationships developed with my Source through Mother Aya, I have been divinely tasked with bringing My Sacrament(s) to Modern People in a Modern way. I accepted this Spiritual task and recognized this as my life's work.

Where there was no clear path I blazed a trail to Mother Aya, opening access to those who would have no other way to this religious/spiritual experience and the healing and spiritual progression that follows.

The deeper I follow my religious path, the deeper my conviction solidified that I must make my Sacrament(s) available to those that could safely participate.

Who is this Mother Aya many ask? What "proof or Fact can you show me that this is nothing more than tripping balls?

I must allow you to find your answers but I am going to give you a clue, google "Sherida" and research the "Sumerian Texts" the First recorded civilization known.

The understanding of the Universe And Her Creed.

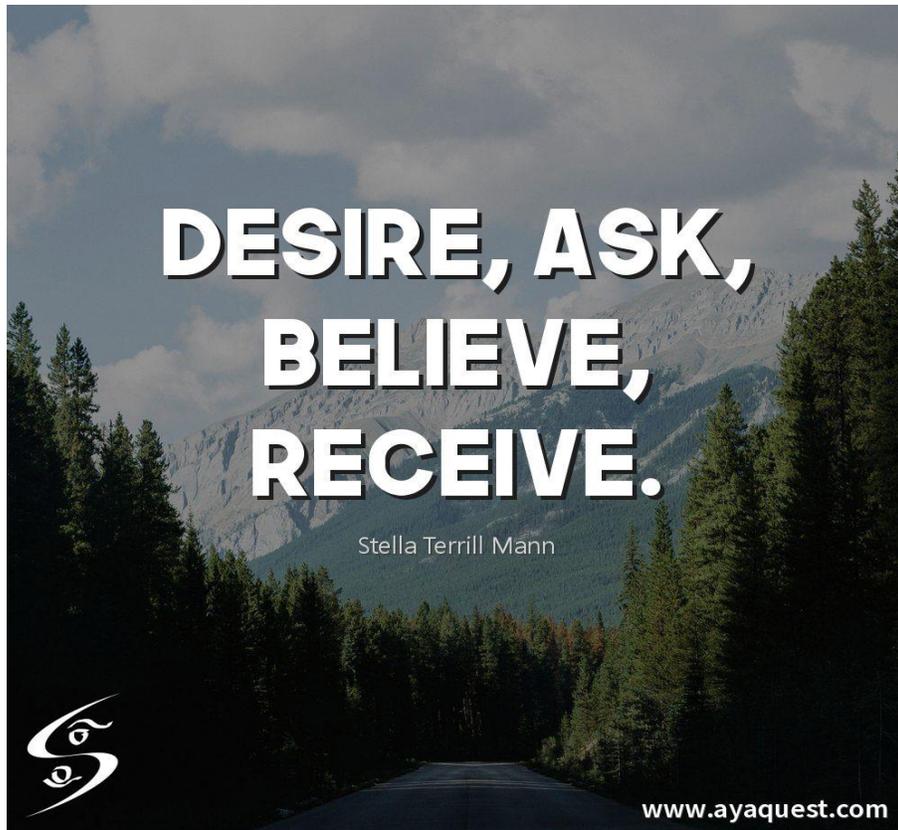

The understanding revealed to me of the Universe is that of a free will Universe, what that means is it must be your choice to take the step through Ayahuasca, you must come with an open mind and heart of one's own free will. |

I found Mother Aya to be a Goddess of the honest foundation who is concerned for her Children of our blue sphere we call earth. Mother Aya is separate from our Sacrament(s), through my Sacrament(s) we reach for Mother; often she is responsive in a loving way if respect is shown. |

Again we are in a free will Universe and Mother Aya is under no obligation to work with anyone and she requires no worship

Mother Aya wants for us to "become". "Become what?" many ask, "Become one" is Mother Aya's answer to me, Become One with yourself, Mother Aya, Mother Earth and Source Energy is a start.

Laying myself on the altar of self discovery looking at the prism that was my higher self and ego divided, killing the ego was not my vision or what was revealed to me in many deep and intense Journey's with Mother, I must work on integration, another way of putting it is finding "peace" and becoming "Whole" in body, mind and spirit.

Mother Aya is an Interactive Mistress Spirit that has healing capabilities and I have grown to trust her completely and I have introduced many to her and many have benefited from the introduction spiritually, mentally and physically.

Mother Aya has raised my vibration so as to be able to be in contact with her and her legions of helper spirits in the divine cosmos.

As I became "balanced" in my evolving vibration, life became easier and manifestation became faster.

As I became more adept at working with different Spirit Guides, revelations about my purpose were revealed and Shaman is what I became.

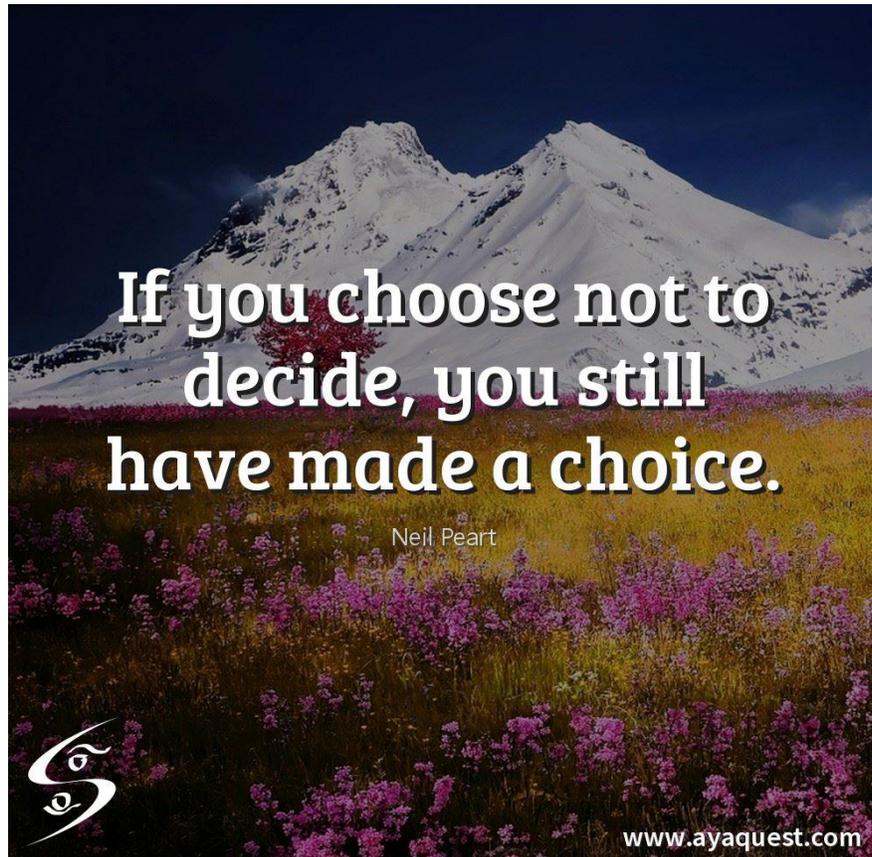

Knowledge is a way to make a living, WISDOM the way to make a life!!

Shaman or Sorcerer

Who is a Shaman?

A “Shaman” is an individual who uses energy to accomplish a positive spiritual purpose such as healing and growth in the physical and spiritual realm.

Who is a Sorcerer?

A “Sorcerer” is one who uses pragmatic tools to accomplish a negative or selfish spiritual purpose, such as gaining illegitimately at the expense of others or causing damage or harm or feeding on the energy or money of others. This kind of person is also, in many places, called a “Brujo” (pronounced Broo – HO)

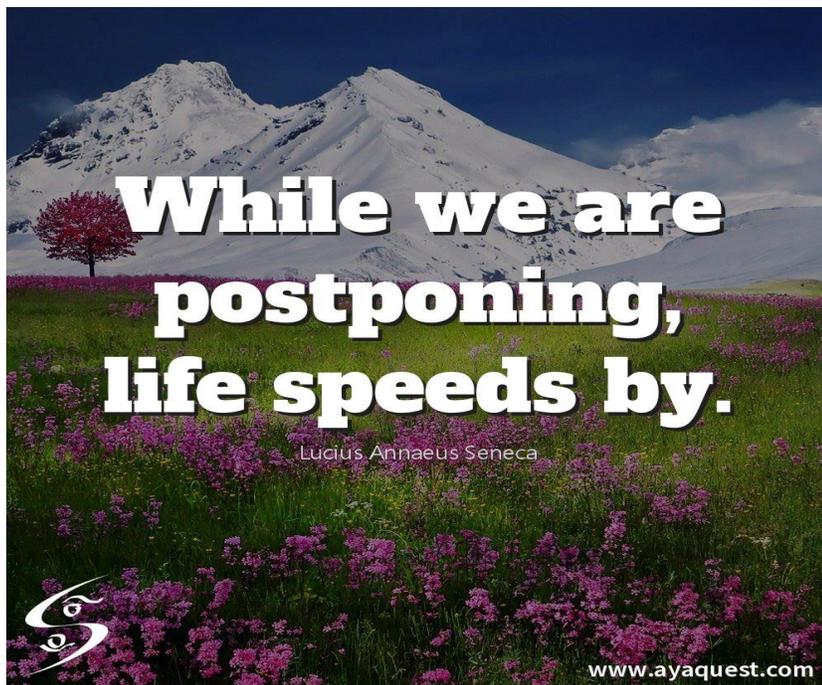

Shaman and Sorcerer Power

At the highest levels of both Shamanism and Sorcery, there is power. Every Shaman who has harnessed power, there is an incredible and consistent temptation to use the power that we have learned to harness and direct for our own ends.

Those who move down the path from Shamanism to Sorcery usually use this power, at first, out of a desire to do well. But once the line is crossed into an illegitimate use of power, it is difficult, though not impossible, to turn back from the lure of that power.

Sorcerers can be dangerous. The forces they are dealing with can be dangerous and sometimes immature, as is often the Sorcerer. A Sorcerer is a practitioner who egotistically believes they are the "Source" of their power, a Shaman is one who understands that to be in flow with Mother and Source is THE POWER.

Mother Aya's Guidance

Mother Aya guided me to a relationship of trust with Source Spirit, I have been guided to be at peace with the understanding that I can only understand so much and I must trust what I cannot fully understand.

Aya's Creed by Shaman Steve Hupp

Mother Aya guided me on how to wield honest influence with entities of pure intent, to establish spiritual flow which can be directed in Ceremony for healing and spiritual progression.

Mother Aya's guidance is firm in regards to my responsibility to create my world, a kinder world, a world that can "become whole" if I am to face the challenges that are coming my way.

Mother Aya is no fool, She has seen the larceny in our hearts up close, the default defensive aggression, sexual obsession and she guided me to the reconstruction of pro-social boundaries and fully understands the need to be cautious, but She is firm in that we cannot be frozen in fear of the reflection of our base primal self, We must continue to accept the world as it is, ourselves included, with an eye for making a better tomorrow. **PROGRESS for ALL**
