

Dominic Scanlon

F.Arbor.A., CEnv.

Director & Senior Consultant

Aspect Tree Consultancy Ltd

I am an experienced Arboriculturist with 18 year's post qualification experience.

I spent 10 years working in local government, within planning departments, at Teignbridge District Council and Exeter City Council. I was responsible for protected trees, planning advice and appraising landscaping schemes. This experience gives me a valuable insight into planning and protected tree legislation and processes. I progressed into the private sector in 2004, running a consultancy department for a tree surgery company. I became a Fellow of the Arboricultural Association in 2005 and a Chartered Environmentalist in 2008.

I set up Aspect Tree Consultancy in 2008 with two colleagues to provide a high quality arboricultural consultancy.

Aspect is an independent professional practice which prides itself in taking a solution-oriented approach to each and every project. As an Arboriculturist I am able to provide clients with prompt, pragmatic, and cohesive solutions to a wide range of tree related issues and I have a robust knowledge of the planning system.

Aspect differentiates itself by getting to know and understand our clients' business, to bring new ideas and a fresh approach.

Key Experience:

I provide arboricultural input to a wide range of planning work, including:

- Master plan sites – large residential, mixed use and commercial sites across southern England and up to the Midlands.
- Town centre development projects.
- Residential schemes – from small domestic schemes to major housing and infrastructure projects.
- I work for a wide range of developers, architects, engineers and planners to provide a high quality arboricultural consultancy service.

Recent Local Projects:

- Hillcrest School, Exmouth, C G Fry & Son – large, high quality housing development.
- Former St Loyes – Millbrook Village, Exeter, Urban Renaissance Villages – retirement housing development.
- Living Systems Project, Exeter University – large educational development.
- Penns Mount, Kingsteignton, Eagle One Homes – large residential development with open space provision.
