SATURN

THE NEXT
GENERATION
LOGBURNER
HAS ARRIVED

Modern clean-burning technology and designer styling make the Ferva Saturn the premium choice for sustainable home heating.

THE FERVA SATURN IS AN ULTRA
LOW EMISSION LOGBURNER,
ARCHITECTURALLY DESIGNED
AND SO SIMPLE TO USE

ferva SATURN

NEW ZEALAND'S MOST ADVANCED WOOD BURNER.

Designed for New Zealand homes

Ultra low emissions and clean air approved

Designed and made in New Zealand

10 year warranty

18.9kW max output lab tested

NO FLUE SHIELD REQUIRED

Enjoy the simple clean lines and elegant styling of your burner.

COOK TOP FEATURE

The specially designed cook top surface gives you the opportunity to use your fire's heat for cooking.

HIGH/LOW CONTROL

Adjust the heat output of your fire easily to maintain a comfortable temperature.

TWIN COMBUSTION CHAMBERS

The secret behind the Ferva Saturn's ultra-low emissions is the use of downdraught technology. By drawing the flame through the charcoals into the lower chamber and creating a longer flame path, a more efficient and cleaner burn is achieved.

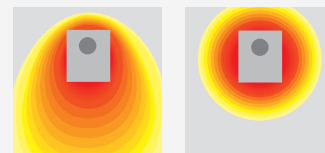

GENERATE POWER

The USB socket supplies 5VDC @1A, capable of powering and/or charging most USB devices.

TWO SPEED CONVECTION FAN

Transfers heat through the room using air currents, making sure heat reaches the whole area you want to heat and keeping your home cosy.

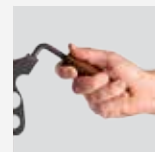

FAN

RADIANT

USER FRIENDLY DOOR ACTUATED MECHANISM

Ferva Saturn is one of the simplest ULEB fires to operate with no additional levers or slides to engage during use. Simply open or close the door and the clever door actuated bypass mechanism does the rest.

CONVENIENT ASH PAN

The Ferva Saturn is equipped with a removable ash pan for easy cleaning with no mess.
