

Becky Stephenson, RN, MBA, CPC, CPC-H

Medical Claims Advocate, Certified ICD-10-CM/PCS Instructor, Medical Coding & Documentation Expert

I have worked with Bob Bennett on several cases before the Texas Medical Board. I am a registered nurse and work as an expert witness in coding and documentation. Mr. Bennett does a phenomenal job in representing physicians that need legal advise and representation. He is a seasoned veteran and will leave no stone unturned when physicians have issues before the TMB. I worked with him before before cases during prepration and have observed his work in TMB Panel hearings. His experience and expertise is unmatched. I would not hesitate to recommend him to physicians in need of legal services.

June 28, 2009, Becky was with another company when working with Robert S. at Bennett Licensing for Professionals LLP
