RE: COURT OF APPEALS NUMBER: 14-14-00470-CV
TRIAL COURT CASE NUMBER 2013-56866

Dear Ms. Acevedo and parties,

I am writing on behalf of Robert S. Bennett as a character reference. My name is Chris Bledsoe, MD, a private practice anesthesiologist in San Antonio that covers many surgeries for Karl Swann, MD who is a very good friend of Rick Perry former Governor of Texas. I also am CEO of the largest medical neuromonitoring company in San Antonio, Texas. I met "Bob" Robert Bennett as a family friend many years ago and never thought that this one man would change my life forever. During my residency, I was wrongly accused of a crime due to a simple language barrier between me and another individual. I immediately turned to my only attorney friend at the time, Mr. Bennett. I did not have any money at the time or many resources to clear my name. Bob took me under his wing and consulted on the case with a good friend of his, Jules Laird. My case was not billed and wiped forever from my personal record. Although I have zero incidents prior to that experience or after, it has stayed with me in my heart and mind. Without Bob's help and him taking time out of his busy law practice to assist me (FOR PENNIES), I would not have a successful career or a beautiful family with two sons and one daughter. I have met many people along the way to wearing the white coat and having the public's trust in my hands, but Mr. Bennett is the most influential person I have ever met in my life that has given me the opportunity to take care of my patients. Please consider my character reference in deciding any potential future outcomes with Mr. Bennett, he is an asset to Texas and must be given an opportunity to continue his practice.

Respectfully submitted,

Chris Bledsoe, MD
