

We will be hosting your staff for a five day journey of discovery through the Cape winelands, with a specific focus on the wines that are on offer at your properties. The course will follow a practical agenda involving visits to numerous vineyards, one-on-one time with vintners and farm owners as well as discovering the wine culture of the Stellenbosch, Elgin, Franschoek and Paarl regions. This course acts as an add-on to the modular training which is conducted in-camp and a thorough examination of all content covered will be held at the end of the five day course.
