Locally Enriching Educational Experiences

Dear Families,

I wanted to extend my warmest welcome to you all! I am proud to announce that LE3 has been selected to be the vendor of St. Joseph's Extended Day Program for the 2017/18 school year. Our program is meant to add a whole new academic element to after school care. We have created a curriculum that encourages children to continue learning, stay physically engaged, and realize that learning can be fun!

Below is a brief outline of the benefits of the program we have created for St. Joseph's:

1. Our Program Manager is a certified teacher, approved by the Office of Child Services to work one-on-one with children, and she has been working in the after school community for over 5 years.
2. Each day children will participate in an hour and a half of academic time. During this time children will work quietly on homework, read, or participate in an academic game.
  - a. Subject specific homework help is provided.
3. Our curriculum provides ample opportunities for children to continue to learn!
  - a. Sessions of Art, Technology, Physical Education, Science, History, will be included in our lesson plans. Our unique lessons push children to use all of the skills they learned during the school day. All lessons are presented in a tactile manner that enforces retainable knowledge skills.
4. The daily fee will include a healthy snack.
5. We will be offering programming until 6:00pm each day, full day camps on days off school, break camps, and a 10 week academic summer camp!
6. All of our staff members have a minimum of 2 years' experience in childcare, a bachelor's degree, a teacher certification, and are CPR/ First Aid trained.

LE3 strives to make the after school experience as convenient for parents as possible. If you have any questions, concerns, or recommendations please do not hesitate to call me directly.

Please return all registration forms with a \$35 registration check to LE3 Business office.

I look forward to starting the 2017/18 school year off with you and your family. If you have any additional questions about registration please feel free to reach out to me directly.

You can complete our online registration form through the following link:
