New Training Equipment Arrival

By Battalion Chief Joshua Sunde

April 5, 2017

The Watt Park Fire Fighter Association were so gracious to help support Nevada County Consolidated FD and the JOA with purchasing our department a Rescue Randy mannequin for simulated rescue and physical fitness training. NCCFD and the JOA would like to thank all the volunteers from WPFPA that helped with the sales of ice cream during the fair to make this possible. Due to budget constraints at NCCFD and the JOA it makes it difficult to purchase training props and equipment on an annual basis, so grants and donations are heavily relied on for our continual up-to-date training equipment. As you can see from the pictures presented it was sorely needed.
