

# Streamline Your Inspections

WITH  
**Inspector** 

Eliminate **pencil & paper** reporting

Equip **barcodes** on inspection items

Scan barcodes with **mobile handheld**

View **inspection data** on backend system and **produce reports**

Upload reports to **secure database** stored in the cloud

Fill out **custom inspection forms** on handheld device

Assign **to-do-lists** & generate follow-up **maintenance requests**

Track missing inspection reports & **never lose** a paper report again

Streamline your inspections today with **Inspector+!**
