

We are renewing a year and it makes us feel as to start a new blank notebook with that special new-smelling.

After celebrating these warm and traditional days, we start this 2017 with the same illusion and wish to work as always.

We would like to present you our new general brochure that we have prepared hopefully and with the aim that could help us to start with new projects.

Although we are working on a new company web, you can check the new catalogue on this link [http:](http://www.m2bswitches.com/cataleg/catalogue_M2B_2017.pdf)

You will find a lot of novelties included, as for example a security frame for our RL-23 or the new RL-35 and RL-51 waterproof switches or the signal switch RL-35P.

You also will see our new door switches and a lot of new power sockets and indicator lamps.

Please feel free to contact your agent or distributor in case you would like to get a paper version brochure and we will be pleased to send you as soon as possible.

We would like to thank you for your confidence and to renovate our commitment with you one more year.

May this New Year bring success and happiness for all of us.

Best regards
