PLAITS

1

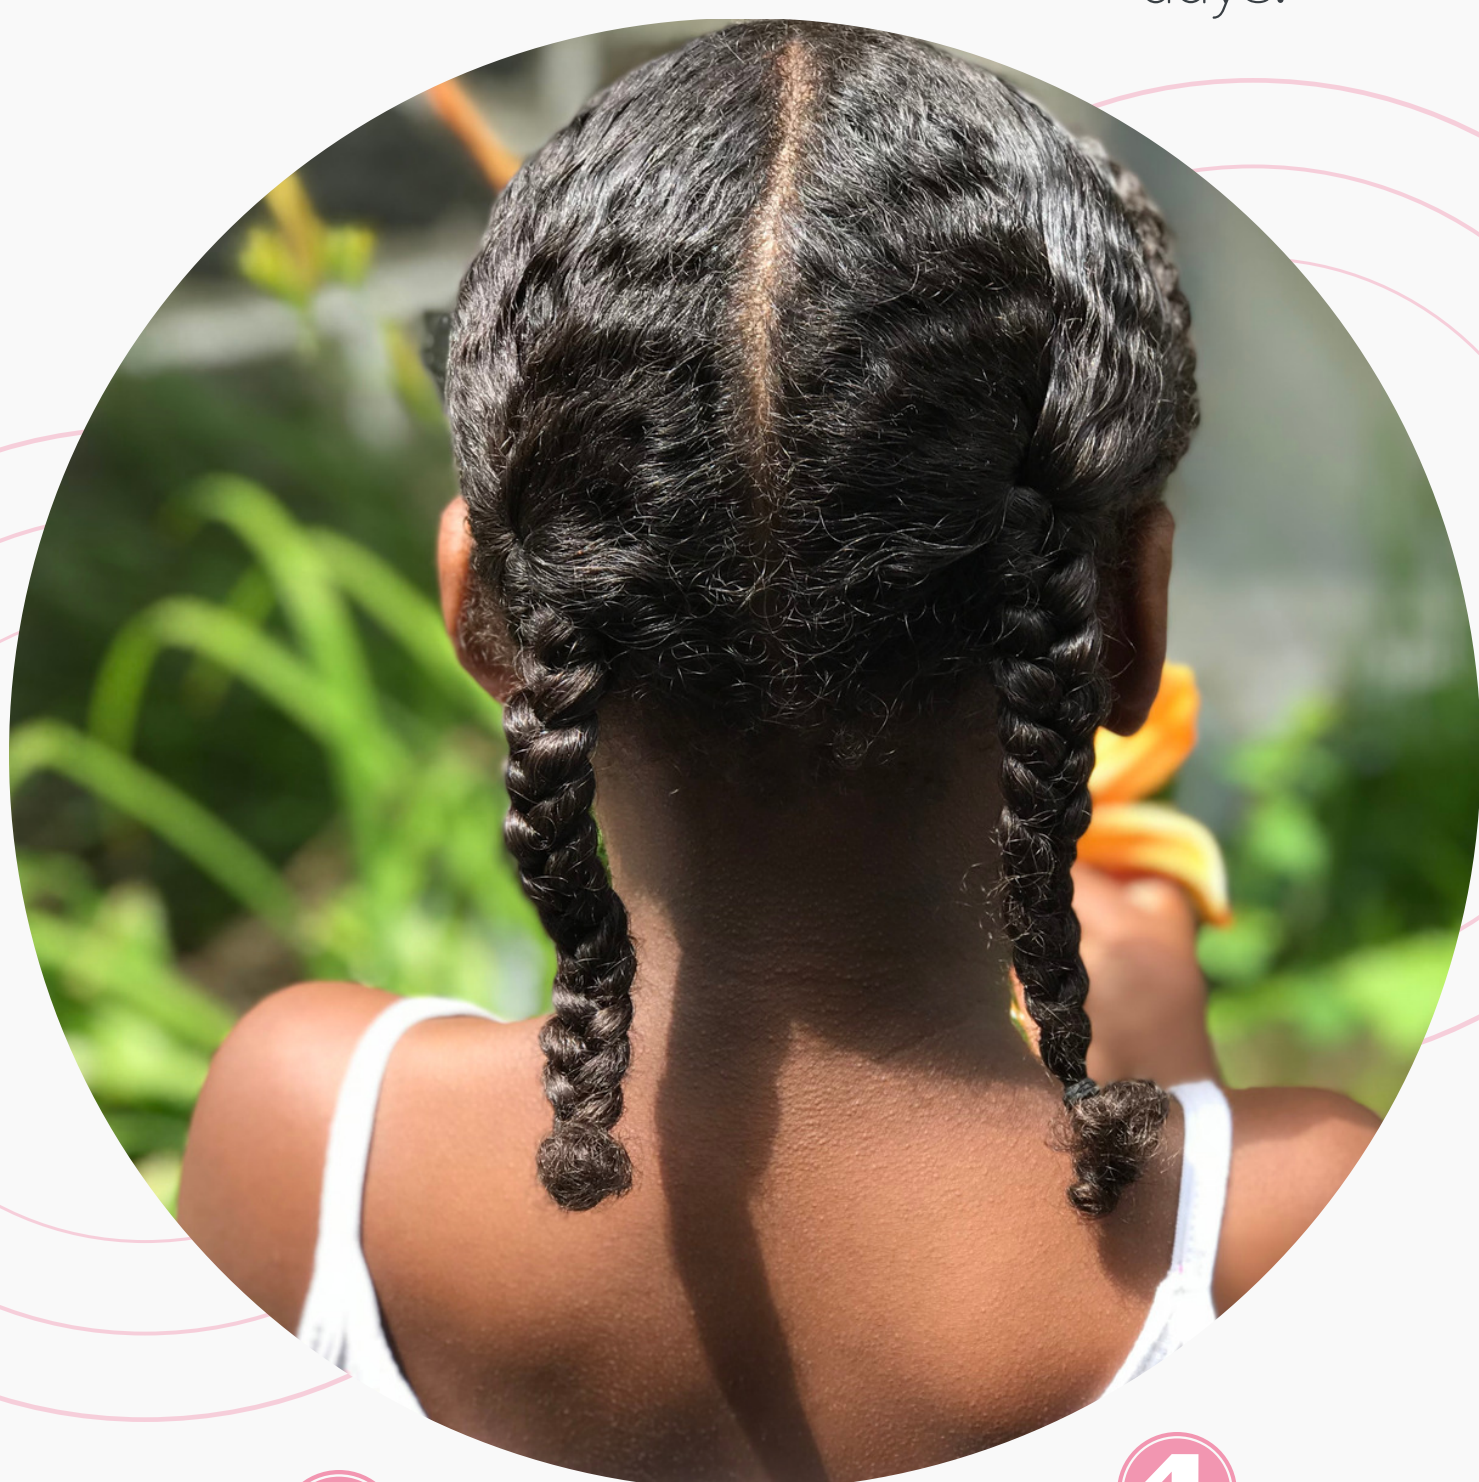

Perfect For Tender Heads

Plaits are gentle for sensitive scalps.

2

Long-Lasting

Once braided - plaits can last for days.

3

Versatile

Small plaits can be left out, pulled into a pony tail, or styled similar to if the hair was loose.

4

Wash Scalp With Them

Sand in hair from beach? No problem, you can still wash the scalp and the plaits will stay in tact.

5

Protective Style For Wild Sleepers

Our little ones move too much for satin scarves and pillowcases. Plaits keep their hair better protected at night.
