

♡ *What's so appealing about...*

# WASH-N-GOS

1

## Unique

Wash-n-gos are unique to each person.  
Only you can achieve your wash-n-go.

2

## Compliment Frizz

This is the only time where frizz makes the style look even better.

3

## Minimal Manipulation

After detangling while wet, no hair tools are needed.

4

## Air Dry

Let the hair air dry and watch it transform.

5

## Daily Hydration

For our children's wash-n-gos - daily saturation in water is needed.
