

Computer Contract for Family Use

The following contract states the rules and regulations for netbook use by members of the family. Please fill out all sections below. Both student and parent/caregiver must sign.

Please list what the netbook can be used for. For example, homework, social networking, email, etc.

Where will the computer be stored at night?

Where will the computer be used? For example, can the machine go into the bedroom, bathroom, etc.?

Can the computer be used when the parent/caregiver is not home?

If there are multiple users in the home, who gets priority? In other words, does someone with homework get to use the machine before someone wanting to send an email?

We, the below signed, agree to abide by the computer policies listed above. Further, all parties agree to the following:

1. I will not share my personal information online, such as my picture, address, phone, numbers, or school without first checking with my parent or caregiver.
2. I will inform an adult immediately if I receive an email or other form of communication containing threats or inappropriate requests.
3. I will keep my passwords private, sharing them only with my parent/caregiver. This includes not sharing with friends.
4. I will check with my parent/caregiver before installing or downloading anything that could potentially harm the computer.
5. I will not send or post inappropriate messages.
