

Your challenge today is to go on an Angle hunt!

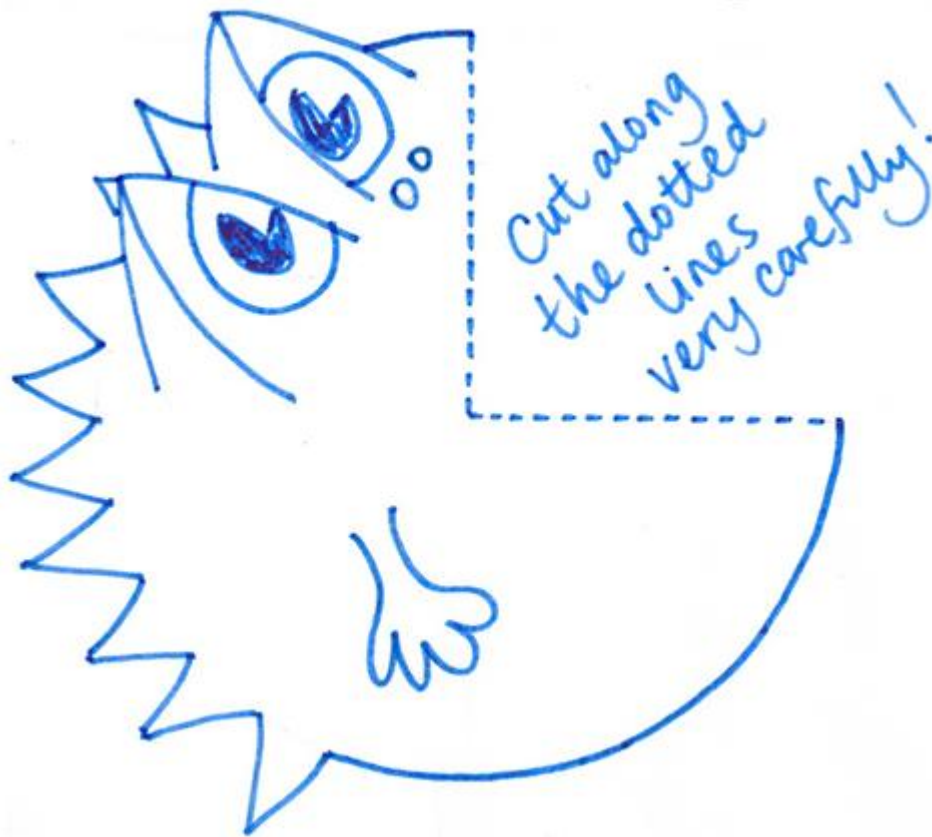

Using the right angle tester below or by making your own. Can you find things around your home or garden that have right angles?

A right angle is 90°

Can you find objects that have an acute or obtuse angle?

An acute angle is an angle smaller than 90° and an obtuse angle is bigger than 90° .

Put your findings in the table below.

Objects with Right Angles	Objects with Acute Angles	Objects with Obtuse Angles
