

Weekly Topic Home Learning Task - Monday 27th April 2020

Maps, symbols and your local area

You are going to be learning about what a map is and how to use one. Click on the link below.

<https://www.bbc.co.uk/bitesize/articles/zhtyv7>

Once you have read the page, watched the videos and completed activity 4 to help Sue locate the compass points. Click on this link for more information about maps, symbols and contours.

<https://www.bbc.co.uk/bitesize/topics/zvsfr82/articles/zjdkhbk>

Now that you have learned a little more about maps, I would like you to have a go at drawing a map of part of your local area (street near your home), with symbols (and contours for a challenge).

It is very important that you complete this safely following the restrictions on social distancing and restrictions on daily exercise.

I am sure many of you know the local area you reside in well!

You could perhaps complete this as part of your daily exercise with an adult or you could use google earth or try to draw your map from memory.

Please complete your map on a plain piece of paper; you do not need to print the sheet from the website unless you want to.

Remember this task is for the week, so take some time to think about how you want to plan your map before you get started. I look forward to seeing your neatly drawn and labelled maps.

I have included a local area sketch map below as an example!

My Local Area
