

Troglotroll

I'M A TROGLOTTROLL....

No wait, that's wrong,

I am an underwater welder

Disguised as a Troglotroll for fun.

*I may look like a Troglotroll but trust me I am
really an underwater welder...*

AK-AK-AK

No, wait, I am lying.

*I am really a chef under the guise of an
underwater welder,*

*Wait that's a lie as well,
You have caught me... AK-AK-AK
I am truly the Emperor of Zamonia acting as a
chef, in Disguise as an underwater welder, that is
why I look the way I do*

AK-AK-AK

*All right I admit it I am a Troglotroll
A lying mischievous Troglotroll
What morale, what care?*

*I take pride in my lies.
You can try to change me,
to make me turn over a new leaf.*

*But I can not I am the bane of the Gloombergs,
a despicable creature.*

Captain Bluebear

Bluebear's have twenty seven lives
Most of mine being spent on the Island's Of Zamonian
I started off all alone in the Zamonian Sea
Oh, how young and frightened I was.
Then, I was saved by the mini pirates
and there my fabulous tale starts.
Never a blue moment, my life is packed with wondrous adventure;
I have loved every moment of it
From the Hobgoblins and the Babbling Billows;
Who taught me how to write, how to perform.
Then to Deus X Machina,
He showed me life was too precious to be left to chance,
and how excitement was everywhere...
Sometimes, you just have to go find it.
Next to my schooling,
With Professor Nightingale,
who taught me the finer sides of life.
He also put an annoying encyclopedia in my head,
Which always comes up just a second too late.
Then off I go off again,
Traipsing through the desert
becoming the chosen one, I trapped Anagram Ataf
Sick of the sand and the Mugshrooms I left.
Through a tornado and through a head I finally approached
ATLANTIS
There I learned how to cook,
How to whip a story,
How to out lie a Troglotroll....
I'm getting ahead of myself,
A bear must have his secrets you know.

Professor Abdullah Nightingale

▲❖▶❖❖▷❖❧❖⋈∈Ĉ×Ū≧≡.....

Oh my, I am sorry.

I forgot

Humans cannot understand this language
due to your one, measly brain.

Oh dear, I believe we have gotten off to a
bad start

Here, let me start again.

Hello, my name is Professor Abdullah
Nightingale.

I am the founder of the academy
and the leading expert in darknessology

An inventor by nature
and an Noctornomath by birth.

I have a great number of inventions

The unmeetable ice,

the Volcanic Suit,

And of course harnessing Darkness.
I am sure you have heard of a few.

I teach at my prestigious academy.
The Nocturnal Academy.
You see KNOWLEDGE IS NIGHT.
It is little known, but all creatures become
more intelligent in the dark.

Teaching is a great joy of mine,
I literally impart knowledge upon them.
One of my favorite students is none other
than Captain Blue Bear himself.

I gave him my full encyclopedia
Imprinted right in his neural pathways.
He has been through many travels,
and will have many more to come.

**KNOWLEDGE IS
NIGHT!**
