

CV – Jan van Rooyen

My involvement in the cat fancy started in 1989 when I started breeding and showing Burmese. My cattery name is Zion. My highlight in breeding was when I bred the first lilac Burmese to achieve a Supreme Title in South Africa. I since have been involved in several positions in the cat fancy like club chairman, SACC President from 2009 to 2012 and the SACC Treasurer from 2000. I started the judging course in 1995 and became an all-breeds judge by the end of 2001. I have a B Com: Accountancy degree from the University of Johannesburg and a Masters in Business Administration (MBA) from the University of Pretoria. I am currently employed by Vodacom Group Of Companies as a Manager Business Liaison in the Customer Acquisition Department.
