

YOUR FAMILY AGREEMENT

THOUGHTS BEFORE YOU START...

A family agreement is a great way of starting a conversation with the whole family about internet usage and online safety. It's the perfect way of setting clear expectations for the entire family.

How to write the agreement...

1. Make sure the agreement applies to all parents, carers and children. It's about making an agreement as a family.
2. Try to make sure it works for everyone and you are all happy with the agreement.
3. Write your agreement in terms of what you *will* do, rather than what you *will not* do. Use positive language.
4. Display your agreement where it can be clearly seen, like on the fridge!
5. Set a time to review your agreement in the future. Make changes to it as your children grow up.

Some questions to ask and answer...

Who is this agreement for?

Why are we creating this agreement?

What happens if someone doesn't follow this agreement?

What do we use the internet for?

Adults

Children

We AGREE TO...

**WHO IS RESPONSIBLE
FOR THIS?**
