Available Classes:

☐

Econet Zoning Solutions – Tues. September 29, 2020 @ 8:30am-10:30am

Cost: \$40/person

The Econet Zoning Solution course is designed to educate the technician on the installation, startup/commissioning, and troubleshooting of Econet Zoning. Topics covered include equipment compatibility, zoning considerations, dampers, wiring, zone airflow settings, linearization, diagnostic codes, and more.

**A manual for this class will be issued at registration.*

☐

90% Gas Furnace – Wednesday, October 28, 2020 8:30 AM-10:30 AM

Cost: \$70/person

In this class we will go over the components that make up the 90 percent gas furnace and proper venting. We will dive into each component and talk about its purpose and testing procedure, including pressure switches, vent pressure, flame rectification and more. We will also go over in detail the proper venting of 90% furnaces. Both service and installation will benefit, approximate class time 2 hours with a short break.

**A manual for this class will be issued at registration.*

☐
