

JANOME

Masterclasses

2015

The World's leading sewing machine manufacturer

JANOME

Masterclasses

Are you thinking about taking a creative class this year? Whether it's to learn a new skill, meet like-minded people or you just want a fun day learning, we hope you will find something of interest in the new selection of classes available at Janome this year. New for 2015 we have our very own **Celebrity Sewing Bee** where we have a whole week of exciting events!

All Masterclasses are held at the Janome Centre, our fabulous purpose built training facility based in Stockport near Manchester. The Sewing School is opening its doors once again to give you the opportunity to work with experienced tutors and industry experts who use Janome machines for their own work. The Sewing School is located on the ground floor of the Janome Centre and is light and spacious. All sewing machines will be provided for your use on the day and a light buffet style lunch served, which is included in the class fee.

Janome is ideally located seven miles south of Manchester and is approximately only two and a half hours by train from London. The location is within easy access of the main motorway network and there is ample onsite parking.

All classes will commence at 10am prompt and finish at approximately 4pm.

Booking information can be found at the bottom of the page relating to the class you wish to attend.

Please read the list of further requirements you will need to bring on the day relevant to the class you will be attending.

Classes run by Janome are booked direct with Janome Head Office and classes run by visiting tutors are to be booked direct with the tutor. Demand for places is always high and we do recommend that you book early to avoid disappointment.

We look forward to welcoming both new and returning customers to the Janome Sewing School and can assure you of a most enjoyable day.

Top of the range training

If you are fortunate enough to have purchased a brand new Janome top of the range Sewing and Embroidery machine you will have received a free training voucher when you first opened the box. Join us to discover how to explore the full potential of your new machine.

All classes will be held at the Janome Sewing School, Bredbury, Stockport.

FREE Introductory one day training classes are available for:

- Horizon Memory Craft 15000
- Horizon Memory Craft 12000
- Memory Craft 11000

These classes do not include associated software training.

Customers who wish to attend a class for one of the above machines should telephone Janome on 0161 666 6006 for available dates after completing the reverse side of their free training voucher.

The Free Training Voucher is valid for 12 months from date of purchase.

Tailoring techniques

New for 2015

Celia Banks teaches a wide range of sewing topics, from beginners to tailoring. She specialises in teaching the Palmer/Pletsch method of tissue fitting to produce perfectly fitted garments and is their only associate educator in the UK and Europe. She teaches in a variety of locations in the UK and runs an annual "Sewfest" in Aarhus, Denmark.

This full day practical masterclass will teach you great techniques for dealing with inserting sleeves, making accurate sleeve vents, smart collars, welt pockets etc. everything will become much easier with the tips and tricks practiced during this session. Everyone will create a portfolio of samples for future reference. All materials will be provided.

This class is suitable for most ability levels, but attendees do need to be able to know how to use a sewing machine for straight stitching.

A kit will be supplied containing everything you need.

Feet and accessories: mysteries unravelled

Ann works as Training Co-ordinator at the Janome Sewing School in Stockport teaching classes on the top of the range embroidery machines. She is also part of the Janome team at major sewing exhibitions throughout the UK.

Spend an exciting day unravelling the mysteries of how to use an array of interesting feet and accessories. During the day a sample piece will be created using several different feet and accessories. This piece can then be made up later into a project of your choice.

An example of the feet and accessories to be used are:

- Circular attachment
- Pintuck foot & guides
- Piping foot
- Bias binding foot
- Gathering foot
- Ruffler foot
- Border guide foot

A kit will be supplied containing everything you need.

Structural stitches - the overlooked straight stitch

Everyone wants to run before they can walk... there's so much you can create with a basic straight/zig zag stitch – this workshop illustrates the tremendously diverse textures and structures that can be developed by just using simple stitches: you'll look at 'the bias', create 'faux chenille', pin tucks, pleats, folds, waves and consider how you can create unique projects with your new skills! So if you're new to sewing and want to build your confidence or already a whizz who needs to get back to basics and review their practice – then this workshop is for YOU! You'll leave with bundles of samples and a head full of ideas.

Overlocking techniques made easy

We are delighted to welcome Gill Arnold to Janome this year. Gill has her own studio in Birmingham where she offers a comprehensive program of hands on dressmaking and tailoring courses. Her career in theatre costume, clothing manufacturing, couture dressmaking and teaching has provided her with a wealth of knowledge which she enjoys passing on to others. Gill gives talks on a variety of sewing related topics and is a regular contributor in the lecture halls at the Sewing for Pleasure Show, National Exhibition Centre Birmingham.

Whichever brand of overlocker you have, this workshop is designed to give you confidence to operate an overlocker to its full potential.

Learn to thread the overlocker and adjust the cutting width, length and differential feed settings to perform various techniques using a variety of fabrics.

A booklet of overlocking reference samples is compiled to take away.

Painterly embellishments

Tutor
**Dionne
Swift**

Discover new ways to create surfaces and marks on fabric with an embellisher in combination with free machine embroidery. This workshop explores a new vocabulary of mark making, whilst supporting you to create embellished & stitched cloth which can be used as a wall piece, part of a quilt/patchwork or any other project – the choice is yours!

You learn to draw and paint with your machines.

Inspired by a collection of C20th painters you will analyse and translate their painterly qualities into fabrics. This process can be the foundation of future developments and is an excellent format for establishing new directions in your creative work. It's fast, fun and addictive.

By the end of the day you will have discovered a collection of techniques to help you gain the most from an embellisher and you will be able to draw with your sewing machine.

There will be a series of samples & workshop notes for you to continually refer to which will support your on-going textile development, plus a larger finished piece to be admired by friends & family.

TUESDAY
23RD

Tilly Walnes

Tilly Walnes – from Tilly and the Buttons – creates gorgeous step-by-step guides to sewing your own clothes. With jargon-busting instructions and photos demonstrating each step, her line of modern dressmaking patterns, acclaimed book *Love at First Stitch*, and popular blog help you to create clothes you can be proud to say you made yourself – even if you're a new stitcher.

Sewing knits: Make a Coco top or dress

"Sewing with knit fabric isn't difficult once you know how! Tilly will teach you tips and tricks for cutting, stabilising and sewing knit fabric on a regular sewing machine. Each student will make a Breton top, dress or sixties style funnel neck using Tilly's popular Coco pattern [<http://shop.tillyandthebuttons.com/products/coco>]. You'll get a Coco sewing pattern to take away with you. Coco is easy to make, but you'll need to know how to use a sewing machine already.

A kit will be supplied with everything you need

WEDNESDAY
24TH

Back to Basics

During this action packed day you will experiment creating different types of seams/finishes and work with a variety of fabrics.

You will use zig zag stitch, stretch stitch and work with a twin needle. You will complete a French seam, flat fell seam, lapped seam and look at different ways of neatening seams. You will learn how to top stitch and under stitch, how to reduce seam bulk successfully and how to sew with piping. You will look at hems for straight and curved applications, how to use a bias bound hem and how to use a rolled hem on an overlocker.

David will give guidance throughout on the correct use of needles for different fabrics.

You should go away with gained confidence in using a sewing machine and a variety of samples for future reference.

A kit will be supplied with everything you need

David Damson

David made it through to the quarter finals in the Great British Sewing Bee and has been sewing for about twelve years. He learned his skills making everything from mountain equipment, Prom dresses and silk nighties!!! He has been an instructor in the Army for over fifteen years and uses his methodical approach to teach the foundations of sewing.

THURSDAY
25TH

Sandra Lavender

Most of you will know Sandra Lavender as a finalist on the first series of the Great British Sewing Bee. Sandra was born and bred in the Midlands and spent her childhood sitting watching her mom and grandmother making clothes and household items. She first started sewing at the age of 13, making skirts, dresses and tops for herself. Since then she has used her sewing skills to make clothes for herself and her 3 daughters and created beautiful soft furnishings for her home.

Sandra loves that she can make items that are unique, practical and well made, on a budget. Share a day with Sandra, her enthusiasm and knowledge for all things sewing is inspiring.

A Skirt for all Occasions

This course will teach you how to make a classic 'A line' skirt. The pattern used is so versatile; it really can be a skirt for all occasions. A tweed fabric will make it perfect for the winter. Try soft, cool, pretty cotton for the summer or a beautiful fabric for an elegant evening skirt.

The course will involve:

- Arranging the pattern pieces on the fabric
- An explanation of pattern markings
- Using Interfacing
- Inserting a zip
- How to create the perfect dart without dimples
- Using different types of stitches

A kit will be supplied with everything you need

FRIDAY
26TH

Stretch your sewing skills with active wear

After winning the made to measure challenge with her yoga wear, Tamara would love to encourage home sewers to invest in an overlocker. Most people cringe at the thought of using an overlocker, Tamara wants to demystify the world of overlockers and show students how to make their own custom fit leisure wear. She says "with practice students will be able to make leggings and a vest in 1hr!" Spend the day with Tamara, you will not only learn some new skills but also learn how to let your imagination flow.

A kit will be supplied with everything you need

Tamara describes herself as being totally addicted to being creative and often has 4 or 5 projects on the go at once. She says "life is never dull!" and balances sewing, teaching yoga and being a mum of two.

It is a love of bright unusual fabrics which inspires what Tamara makes. When she sees a fabric she loves, she'll buy 2 metres of it without a clue what it will be used for! Often seen in her local charity shops, she says "it's all about using your imagination. You may see a pair of curtains, I see a pleated skirt and shift top!"

Tamara Melvin

Heather Jacks

MONDAY
22ND

Winner of The Great British Sewing Bee in 2014, Heather now has the pleasure of passing on some of the skills she has learnt over the years.

Born in 1956, Heather was fortunate to have had tremendous tuition at school in sewing before the subject was removed from the curriculum in its pure form. She has continued throughout her adult life to make most of her own clothes and soft furnishings. Heather loves the more challenging side of sewing, with couture techniques holding a particular fascination for her.

Successful sewing with silk

Heather loves to sew with luxurious fabrics and wants to share with you her experience to help you gain confidence in sewing with silk. Often you can find silk is more reasonably priced than you imagine. Learning how to handle these speciality fabrics will expand your wardrobe options and help you to create designer style garments at a fraction of the cost of buying them readymade. Spend the day with Heather and enjoy a 'hands on' experience in a supportive environment.

A kit will be supplied with everything you need

Tutor
**Celia
Banks**

Sewing successfully with knits

New for 2015

Celia Banks teaches a wide range of sewing topics, from beginners to tailoring. She specialises in teaching the Palmer/Pletsch method of tissue fitting to produce perfectly fitted garments and is their only associate educator in the UK and Europe. She teaches in a variety of locations in the UK and runs an annual "Sewfest" in Aarhus, Denmark.

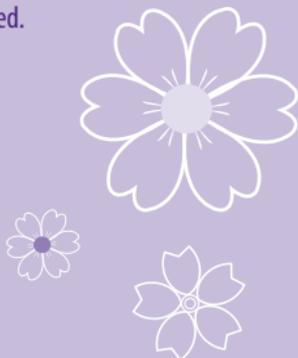

During the day you will practise lots of seam types then move on to neckline and hem finishes, looking at new things on the market to help stabilise knits and different needle types. You will learn how to make self-bound necklines, to use fold-over elastic using both overlockers and sewing machines.

This class is suitable for most ability levels, but attendees do need to be able to know how to use a sewing machine for straight stitching.

A kit will be supplied containing everything you need.

Tutor
**Sandra
Coleridge**

FM725 embellisher creative class

Sandra Coleridge is a textile artist who has exhibited widely and has undertaken many private commissions. She has many years of teaching experience, running classes at her home, embroiderers' groups, guilds, private venues and residential colleges all over the country. She has specialised using the Janome FM725 embellisher since its introduction. Much of Sandra's exhibition and teaching combines the embellisher and free machine embroidery techniques.

Join Sandra for a whole day's workshop exploring many techniques on the Janome FM725 embellisher and finishing the work with free machine embroidery. Each student will take home a finished artefact, a small bag, purse, specs case or other chosen small item.

Suitable for

Textural collage: Embellisher & free motion embroidery

Tutor
**Dionne
Swift**

Tuesday 20th October
10am - 4pm

2015

Several years ago, frustrated by collaging in paper and desperate to work with cloth, Dionne dashed out and bought a Janome FM725 Embellisher "it allows me to bring fabric textures, marks and surfaces together, without glues hence retaining the 'handle' of the cloth... I've never looked back!"

On this jam packed day you will explore a variety of joining/ collaging techniques using an embellisher and a sewing machine: you'll play with layout, scale and image in considering a series of design implications in the development of your work. You can expect to encounter a series of techniques which will be transferable to many other projects and you'll leave with 1 (maybe 2) tactile collages/abstract pictures.

Bring a small 'stash' of the fabrics and surfaces that you'd like to include (hand dyed cottons or wools work well).

Fine-tuning your dressmaking

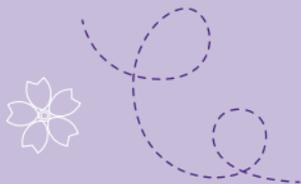

Tutor
Celia Banks

Celia Banks teaches a wide range of sewing topics, from beginners to tailoring. She specialises in teaching the Palmer/Pietsch method of tissue fitting to produce perfectly fitted garments and is their only associate educator in the UK and Europe. She teaches in a variety of locations in the UK and runs an annual "Sewfest" in Aarhus, Denmark.

This full day practical masterclass will teach you great techniques to develop your dressmaking skills. Sewing darts without bubbles, making bound buttonholes and setting in sleeves will become much easier with the tips and tricks practiced during this session. Learn how to make pocket flaps with hidden seams and how to sew difficult corners and godets. Some classic couture techniques will be included and everyone will create a portfolio of samples for future reference. All materials will be provided.

This class is suitable for most ability levels, but attendees do need to be able to know how to use a sewing machine for straight stitching.

A kit will be supplied containing everything you need.

Free motion embroidery & dissolvable fabric

Discover the creative potential of thread and stitch in combination with dissolvable fabric. You'll learn how to draw with a sewing machine and explore the delights of creating delicate lace like items and how to consider colour mixing and varied thread types too.

Dionne will have a series of examples to assist and inspire your creations, you don't need to worry about the design, simply enjoy discovering a new method of working. All the skills you'll learn are transferable to other projects – these techniques are a delightful way to make unique gifts and you can decide on the day to make a brooch, earrings and/or a necklace or simply embrace this unique process.

All the relevant materials will be provided – you just need to bring an open mind and be ready to play!

Janome software training

Janome Digitizer software offers limitless embroidery possibilities. Whether you just want to download designs from the internet or to create your own unique embroideries, it's amazing. The optional embroidery software can convert artwork into stitches and stitches into works of art!

Digitizer MBX software

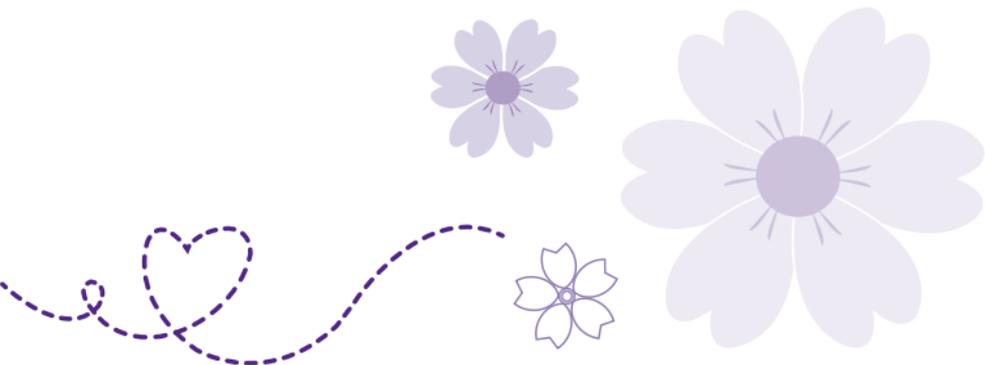

Developed in a collaborative effort with the industry's top embroidery software specialist, Janome's Digitizer software combines easy to use functionality with a powerful software engine to give you complete freedom to express yourself. From editing individual stitches to layouts of large multi-hoop designs and full stitch simulations, Digitizer can handle it all with ease.

Digitizer Jr software

Whilst Digitizer MBX is a powerful and professional level software program Janome can also offer a reduced feature version in Digitizer Jr.

Digitizer offers enhanced creativity on all Janome embroidery machines. It links directly to the MC15000, MC12000, MC11000 and MB4 to make transferring designs even easier. The software is also compatible with the MC9900, MC350E and MC200E.

Discover our tutorial DVD's or contact one of our suggested software tutors to help you learn the software and make the most of your embroidery machine...

Online training

The Embroidery School

Heidi Lawton

'The Embroidery School' is an online training and resource centre using Janome Digitizer software and embroidery machines. The Embroidery School offers one to one Janome Digitizer lessons through remote access and live video chat all over the UK.

Remote access is interactive training via the internet. Heidi will link up with customer's computers via broadband connection, demonstrate the software and talk to them via live chat...just as if they were in regular one to one lesson!

Heidi is offering a block of three lessons for Digitizer Jr and a block of five lessons for Digitizer MBX. Also available are one to one training lessons for teachers on Digitizer MBX and older software, such as Digitizer Pro, Customizer etc.

Embroidery Software tuition

Sue Munday

Do you want to be creative with your Janome software?
Do you want to explore what your software can do?

Janome MBX software has the capability of carrying your ideas so much further. It gives you the capability of taking your ideas to a much higher level and it is so user friendly. Create your own designer bags, wearable items or turn your favourite drawing into a digitised design.

Sue offers one to one tuition, also tuition for small groups, for both Digitizer Jr and Digitizer MBX. Alternatively you may just want help understanding how your embroidery machine works in a one to one environment.

Recently Sue has set up a club for embroidery machine owners (Stitchfriendly), who meet in Fishbourne, West Sussex.

About Janome

Established in the UK in the 1960's, Janome is now the brand leader in the UK with an extensive range of sewing machines and overlockers. Janome sewing machines are designed for ease of use to encourage all levels of sewing. Over 2 million Janome machines have been sold in the UK with over 60 million sold worldwide. Since 1921 Janome have been renowned for quality and reliability at affordable prices and their aim is to provide customers with an unrivalled level of service.

Janome believes that its customers have the right to expect that Janome products will provide them with truly aspirational levels of quality and value without exploiting the people who work for their suppliers.

Janome adheres to high ethical standards with regards to the use of child labour, safety, pay, terms of employment and working hours. Ethical audits are used and many of these audits are conducted as part of the company's participation in the Ethical Trading Initiative which brings together representatives of government, business, trade unions and human rights groups.
