

Who are we?

Outdoor School Bangkok (Early Years) caters for children aged 18 months to 6 years. The Kindergarten is the first to offer young children a lifelong learning experience through regular play outdoors in a natural setting. Inspired by the famous forest kindergarten concept, the school offers a stimulating green space within 1,600 sqm area in the heart of Bangkok (Sukumvit 46) easy access via BTS Phra Kanong– ample space for children to learn and develop in a fascinating and fun environment.

What is Outdoor Kindergarten?

Outdoor education usually refers to organised learning that takes place in the outdoors. Outdoor education programs sometimes involve residential or journey wilderness-based experiences in which students participate in a variety of adventurous challenges and outdoor activities such as hiking, climbing, ropes courses and group games. Outdoor education draws upon the philosophy, theory, and practices of experiential education and environmental education. OSB aims to provide learning engagement that supports the development of self-esteem and confidence using natural and manmade environments.

What are the benefits of Outdoor – Nature play?

At Outdoor School Bangkok (Early Years), we believe in great beginnings. We know that hands-on experience in nature helps build happier, healthier, and smarter children. They learn skills outdoors that they cannot learn inside a classroom, here is our learning formula

H ₂ S = Happier Healthier Smarter
--

HEALTHIER - physical: healthy bodies, stronger immune systems, among others

HAPPIER - emotional: better emotional resilience and management of emotional states, among others

SMARTER - mental: improved cognitive functioning, more relaxed/less stress, among others

In addition, the benefits of connecting to nature have been well documented in numerous scientific research studies and publications. Collectively, this body of research shows that children's social, psychological, academic and physical health is positively impacted when they have daily contact with nature.

Our Curriculum – it's not just recreation but education!

Outdoor School of Bangkok (Early Years) follows the Early Years Foundation Stage (EYFS) Curriculum of England. The kindergarten offers play-based learning, and an inquiry-based teaching style.

Our facilities
