

Orca3D training Worskhop @ Pivot ProduktDesign, Oslo, Norway, 17-19 January 2018

NDAR, in collaboration with Pivot ProduktDesign, is holding a 3-day Orca3D training Workshop in Oslo, Norway, on 17-19 January 2018

The instructor is Stéphane DARDEL, naval architect. The course will be held in English.

The workshop is intended for naval architects and ship and boat designers & builders, with a good knowledge of Rhino3D. Syllabus covers:

- ✓ Rhino v5 user interface and customization
- ✓ Rhino refresher: modeling aids, Gumball, geometry edition.
- ✓ Model management
- ✓ Foundations of modeling and fairing techniques
- ✓ Hull assistants
- ✓ Background bitmap
- ✓ Surface creation and modification
- ✓ Point control
- ✓ Surface analysis
- ✓ Hydrostatic calculations
- ✓ Stability with criteria verification

Course fees are 650€ / day, lunch will be provided. Advance payment of the fee is required to confirm registration. A minimum of 3 registered attendees is requested to maintain the course.

Registration will be accepted on a first come first served basis, places are limited.

Participants should have Rhino3D v5 (latest service pack) and Orca3D latest Release (v1.3.6) or WIP installed on their laptops. In terms of hardware, any modern laptop or netbook will run Rhino5/ Orca3D comfortably in the context of the training course.

For more information or logistics questions, please contact ndar@ndar.com or mail@pivot.no

Looking forward to seeing you at the course!
