Lap	1	1	0	2
Dash w/ Split	3	3	2	4
Flying 40	3	3	0	6

Introduction Screen

Selection of an event will send you directly to the laser connection page.

Laser Select Screen

In the laser selection page, add a laser by selecting the green + button and turn on the desired laser. The laser will automatically select. Note: Phone must be on for a couple minutes for Bluetooth to boot up.

Opening screen allows the user to quickly select the desired event.

Event Screen

Numbers turn green while event is active.

Once the laser has been crossed, the time will appear.

Top drop down menu allows for you to change the event

Laser indicators change to color when connected. Green indicates an unbroken laser where red indicates broken.

The "Ready" and "Reset" buttons are used to run the tests. The previous three times are displayed under these buttons.

Select this "connect" symbol to go to the laser selection screen.
