The Building and Grounds Committee met on Monday, August 14th, 2017 at the Unit Office at 5:30 pm. In attendance at the meeting were:

Supt. Scott Petrie
Architect-Matt Longenecker
Director of Maintenance- Doug Giles

Committee members:
Don Yates
Barbara Chiles

The meeting began at 5:40 pm.

Don Yates nominated Barbara Chiles to serve as chairperson of the Building and Grounds Committee. There were no other nominations. Chiles also agreed to serve as secretary.

The Ten Year Health Life Safety Plan was worked on by the group. The finalized plan will be approved at the September meeting of the Board of Education and then sent to the Regional Office to be submitted to the State.

1. The elevator shaft problem in the Joy building was discussed. A new section of pipe is being laid and the city of Joy needs to check their part of the piping and the valve.

2. The group went over the required items. The temperature control problem at the Intermediate School will be moved to recommended instead of required.

3. Urgent items are those involving exiting and fire safety. A school district has one year to fix those items.

4. The school district is working on a list of items that will be repaired "in house". The architects would then inspect and sign off on those repairs.

5. The architects are going to get information on the cost of fireproofing the black back drop curtains in the high school auditorium.

6. Doug Giles will get a lift and have the architects come and look at the lentils
on the Joy building. A patch up job will be done to get the building through this school year.

The meeting was adjourned at 6:35 pm..

Respectfully submitted:

Barbara Chiles/Secretary of Building and Grounds
