Members in attendance: Balmer, Tucker, Smock, Dillavou
Also present: Supt. Boucher, Rob Reed, Ernie Dillie

FINANCIAL REPORT
A summative financial report for the transportation program was given for the 2013/2014 school year. The District received $1,004,613 in revenue and spent $898,744.

APPELLATE COURT DECISION
Alan reported that the Appellate Court of Illinois Fourth District reversed the decision of the Illinois Education Labor Relation Board regarding subcontracting. The Appellate Court found that Community School District Number 5 did not commit an unfair labor practice when it entered into a subcontract with First Student for student transportation services.

BUS ACCIDENT UPDATE
Alan gave an update on a bus accident that occurred when a driver was taking students to summer school back in June. Initially, the insurance company for the automobile’s owner wanted the District to share blame, but the company changed its mind when it reviewed all of the evidence.

OLD VEHICLES
The Committee decided to dispose of Westmer’s old driver education car and Aledo’s old 15-passener van. Ernie and Rob would determine if the scrap value was more than the book value of the vehicles and then make a decision about the best route to pursue.

BUS REPLACEMENT
The Committee talked about purchasing replacement buses. The Committee agreed to pursue the purchase of two buses. The Board will consider the recommendation at its regular September meeting.

PICK UP TIMES
The Committee discussed pick-up times and agreed to have another committee meeting on August 11, 2014 at 8:00 p.m. to review the routes.

1. We are always open to suggestions from others about how to improve the routes.

5. Mr. Boucher went over the highlights of the rough tentative budget. He explained that there are a lot of estimations at this time and that they will be adjusting lines before the September adoption.

6. It was brought up at a previous meeting that the District needed to address how they would handle political campaigning on district grounds. It was discussed at length and decided that as long as they don’t set up a booth, table, signs or become a public nuisance, they could be at public school functions to talk to people.

7. Mr. Boucher explained how there are misconceptions regarding common core, and parents are confused. Marta Tucker touched on the Common Core and how it is different from “Assessment.” Discussion followed and they all agreed that we need to advertise links to the Illinois State Board website to help inform the parents on what is expected regarding Common Core. It was also suggested that we create handouts for Parent Teacher Conferences.

8. Quotes from Midwest Transit were presented for possible bus purchases. We have to buses that are over 10 years old – 2001 & 2004. The board agreed that we should start a purchasing schedule, but the matter was tabled to advertise for bids.

9. Barb Chiles presented a written Buildings and Grounds Committee report. The Transportation committee met recently and Bill Smock and Tyson Dillavou gave oral reports. They went over bus routes with Ernie Dillie, Rob Reed and Robin Campbell. They commented on how large our school district is geographically, and how difficult it is to organize the routes. They would recommend some bus stops being moved to centralized locations.

10. In addition to their written reports, the principals gave the following oral reports:
   
   Mr. Fleuette reported an estimated enrollment of 377, which is the 3rd year of increase; Mrs. Olson reported a tentative enrollment of 193; Mr. Reed reported an enrollment of 200; Mrs. Day reported a probable 410.

   Mrs. Robinson mentioned that Apollo Elementary and New Boston Elementary preschool programs have achieved Gold Circle of Quality recognition through ExceleRate Illinois, the state’s new quality rating and improvement system for early learning and development programs. She also noted that summer school was successful and a $3000 water fountain was recently donated to the school by a student’s grandmother who works for a company that makes them. Their enrollment is also up from last year to 221.

CORRESPONDENCE

4. None

FOUNDATION

5. Lori Benson gave an update on the progress of the Mercer County Education Foundation that she and a few others have been working on starting. The goal of the Foundation is to support academic programs at MCSD and help students learn and grow. She reported that they are in the process of finalizing tax exemption status and needed a loan or donation from the School District to make that happen. The money they eventually raise would, in turn, come back to the district.

SCHOOL RESOURCE OFFICER AGREEMENT

6. Officer John Murphy presented a log of his time spent in the schools along with an annual review of the program for the Board to discuss. A new agreement has been written up by the City of Aledo regarding the School Resource Officer and the money contributed by the district. The Principals gave positive reports on Officer Murphy’s contact with the schools and the students. A couple of board members questioned the wording in the agreement, and would like to see it changed before they agree to it. It was decided to table the agreement until next month.

AIR CONDITIONING

7. Mr. Fleuette had Knox Heating and Cooling give a bid for doing some more of the air conditioners at Apollo. The goal is to add a few air conditioners each year until the whole building was done. The price quote is $2,500 per unit. Apollo is unique in that it doesn’t have a central boiler like the other buildings and units could be added gradually. There was also discussion on alternatives for trying to cool parts of the other buildings as well. Each building has different systems, so Mr. Boucher directed the principals to gather information on our options.

PARKING LOT SEALER

8. Mr. Boucher presented quotes on having the parking lot at the Intermediate building sealed. The work will include filling of the cracks, sealing the blacktop, and re-painting the yellow stripes. There was some discussion on pricing and it was mentioned that this might not be the best time of year to proceed with winter snow removal just around the corner, but it was decided that having the cracks sealed before the snow could enter the cracks and freeze would be preferable to waiting.

APOLLO ENTRY

9. The front doors have been a concern at Apollo for years. Currently, they have to insert a locking device in the door’s panic bars to make sure they stay locked in the evening. This forces staff members to enter the building through the Kindergarten room. Additionally, they have to repaint the doors often because the cold temperatures in winter cause the paint to fall off. The board voted to replace the doors and surrounding metal enclosure. The new doors will be aluminum and maintenance free.

MAINTENANCE GRANT

10. IEFM has developed a plan for the high school’s HVAC renovation. We need to spend $50,000 soon so we can get a matching $50,000 from the State from the Maintenance grant. The plan is to do some of the
infrastructure work right now including some of the pipes into the tunnels and get ready for the boilers and unit ventilators. The board postponed this matter until they had more information.

**COMMITTEE REPORTS**

11. Barb Chiles presented a written Buildings and Grounds Committee handout. She mentioned that the new Junior High bleachers have staining on the walkways. There was much discussion on how to remedy this.

Barb Chiles also mentioned that there will be a Wellness Committee meeting on September 25th at 3:45 at MCIS.

**ADMINISTRATIVE REPORTS**

12. In addition to their written reports, the principals gave the following oral reports:

- **HS** – Mrs. Day reported that enrollment is still rising and there are gutter problems at the Ag building.
- **JH** – Mr. Reed received word that we were denied in our request to have bus warning signs posted on Highway 17 where we had a bus accident this summer.
- **MCIS** – Mrs. Olson noted that they received $1,100 profit from the PTO book fair.
- **Apollo** – Mr. Fleuette reported that Mrs. Fleuette had worked very hard this summer giving the Apollo Library a facelift. She’s been organizing and stocking new donated books as well. He reported that 50,000 books were checked out last year in the district and 24,000 of those were at Apollo.
- **NBE** – Mrs. Robinson reported that Russell Communications replaced the phone card at New Boston, which has helped with their static problem.

12. The buildings get used by community organizations almost daily. We currently have a rental form with listed fees. CORRESPONDENCE
4. None

TAX LEVY
5. With the increase in the Equalized Assessed value of property, keeping the tax rate the same as before will create a revenue increase of 3%. This will amount to approximately $176,000.

FACILITY USAGE
6. After much debate last month, the board directed the principals to update the Facility Usage Application and Procedure and bring it this month for approval. It turned out that our School Board policies contained a template with an accepted procedure already, so this just needed to be edited to fit our needs.

VISION 20/20
7. The Illinois Association of School Boards (IASB), the Illinois Association of School Administrators (IASA), the Illinois Principal Association (IPA), the Illinois Association of School Business Officials (IASBO) and the Illinois Association of Regional Superintendents of Schools (IARSS) are working together to improve the educational system in Illinois. The steering committee would like school boards around the state to adopt a resolution that supports the work of Vision 20/20. The Board decided to take a month to look over the information presented and make a decision in January.

REINSTATING ART TEACHER AND GUIDANCE COUNSELOR
8. To cope with the financial hardship created by the reduction of State revenue, the Board previously voted to reduce the number of counselors and art teachers. It was decided that the district has enough financial stability at this time to reinstate one art teacher and one counselor beginning with the 2015/2016 school year. Both positions would serve Apollo and New Boston Elementary Schools, freeing up the others to spend more time at the other buildings. The Board directed Mr. Boucher to initiate the hiring process.

HIGH SCHOOL COURSE DESCRIPTION BOOK
9. The High School staff has been working on a course description book for the upcoming year. Aside from the standard annual updates, there were changes to Science class descriptions, per the new Science teacher; Math class name changes due to the new requirements; Art classes will be increased with the addition of another district teacher; and the addition of AED training in First Aid.
COMMITTEE REPORTS 10. Barb Chiles reported on Buildings and Grounds and submitted a written report as well. She also noted that the Staff Wellness surveys were passed out in November, and we are waiting to find out the results from the Health Department.

ADMINISTRATIVE REPORTS 11. In addition to their written reports, the principals gave the following oral reports:

Apollo – Mr. Fluette reported furnace trouble at Apollo. The Christmas Program will take place this week. He also gave some highlights from what he heard at the Board Convention. He expressed concern over the logistics of the new PARCC testing.

MCIS – Mrs. Olson announced that their concert is next week. She also noted that there are hairline cracks in some of the block work at the Intermediate.

JH – Mr. Reed praised the Students Senate and all of the wonderful activities they are sponsoring – Shop with a Cop and Food Pantry donations, to name a few. He also noted that the Junior High purchased a new salt spreader for the parking lot.

HS – Mrs. Day announced that the High School Christmas concerts are this weekend. There is a ceiling leak in the cafeteria, and they continue to have clock/bell problems.

NBE – Mrs. Robinson was absent.

Discussion followed. The board decided to wait until next month to decide on fees after more information is collected that can show how the class fees directly correlate with the supply budgets for those classes. The consensus on meal prices was to keep the prices the same, but they will vote next month along with registration fees.

IESA RENEWAL 12. The IESA membership renewal was approved. The Board asked that Mr. Boucher check into insurance liability at those events that will not have coaches.

**JUNIOR HIGH GOLF INSURANCE**

9. The Board had directed Mr. Boucher to do some checking on whether we need additional insurance for the JH golf tournament that a few of our students participated in, even though it is not actually a school sponsored activity. Our Insurance Consultants advised that the District either wipe their hands of the activity entirely or the District take it on as a sponsored club due to liability issues. If the District were to discontinue this activity, something would need to be noted in the board minutes of the District's disassociation with it. The Board then directed Mr. Boucher to work on a Resolution of Disassociation for next month.

**ATHLETIC BUDGETS**

10. There was a Finance Committee meeting held on Monday, June 15th. The Athletic directors submitted rough drafts of their athletic budgets. Amendments continue to be made and will be further honed before August when the entire Tentative Budget is presented. Mr. Zunkel noted that our athletic budgets are lower than other surrounding schools and we include coaching stipends. Discussion and some disagreement ensued. The budgets will be presented again in July.

**STUDENT HANDBOOKS**

11. All the principals submitted their revised handbooks for approval except for the Junior High, which was approved last month. The majority of changes to the lower grades were name and date changes along with the changed Bullying Policy. The High School had a few minor changes regarding pocket knives, back packs, and extra passing time between classes.

**COMMITTEE REPORTS**

14. Barb Chiles and Bill Smock spoke for the Buildings and Grounds. They recently took a tour of MCIS with Doug Giles. They brought up HVAC problems at MCIS as well as drainage issues and greenhouse condensation. They also noted that Barb Chiles was elected chairperson of this committee and they made goals to tour all the buildings and keep the O&M fund under budget.

Bill Smock also reported for the Wellness Committee and told of the recent meeting. Shawna Weeks from the Health Department spoke about asthma and the procedures in helping students with it.

The Finance Committee met Monday the 15th. Dave VanderHeyden and Barb Chiles were elected co-chairs and Julie Wagner is the secretary. They reviewed the budgets and financial reports. Four goals were set 1.) To keep FY16 budget balanced 2.) To have an active academic foundation 3.) Add to cash reserves 4.) Rearrange line items for readability. Barb Chiles also submitted a report regarding her recent BHASED Governing meeting in May. There are several new staff changes, but they don’t anticipate the districts paying more money.
ADMINISTRATIVE REPORTS

15. In addition to their written reports, the principals gave the following oral reports:

Apollo: Mr. Fleuette reported that enrollment at Apollo is going up again.

HS: Mrs. Day reported that the construction is under way and is on schedule at the High School. They will have a total power outage at the end of July, but should be ready in August. She also mentioned a new class being added at the high school for CNA certification. It would start at 7:30 in the morning and end with 1st hour. After clinicals, the student will be a licensed CNA at completion.

JH: Mr. Reed had nothing to add, but Bill Smock mentioned that several parents approached him about moving the 8th grade promotion ceremony to an evening or weekend in the future.

Intermediate: Mrs. Olson reported that Summer School is going great, as well as the Meal program sponsored by Church of Peace.

NBE: Mrs. Robinson noted that she found someone for the part time para-professional at NBE.
