## **OWL MANOR VETERINARY SELECTED TO STARTUP CIRCLE AT VMX 2018**

Warsaw, Indiana based Owl Manor Veterinary was selected as one of the veterinary profession's most exciting startups, products or services that are revolutionizing the field at NAVC - VMX 2018 (previously the NAVC Conference). Criteria for selection to the Startup Circle included product offerings which are innovative, technologically advanced and serve the veterinary industry.

Owl Manor Veterinary's regenerative medicine products will be showcased at the NAVC - VMX Expo Startup Circle from February 4-7, 2018 in Orlando, FL. Commonly used for joint and soft tissue injuries, Owl Manor Veterinary's devices use blood or bone marrow aspirate that is harvested from the animal and conveniently prepared on-site. Attendees can visit Owl Manor Veterinary in Booth ITC11 to learn more about their point-of-care devices for companion animals.

Owl Manor Veterinary is a medical device company dedicated to joint and soft tissue preservation of companion animals through a combination of regenerative medicine, point-of-care autologous biologics, and complimentary technologies. Owl Manor Veterinary's portfolio of regenerative medicine devices includes Pro-Stride™- Autologous Protein Solution, Restigen™ Platelet Rich Plasma, and CenTrate™ Bone Marrow Aspirate Concentrate, offering point-of-care convenience with preparation on-site in less than 30 minutes.
