Global Services and Facilities

Our New Year's Letter

1. We will inform, advocate, network and make matches for members, nothing less, nothing more.
2. We will charge no extra to the yearly membership and the fixed matchmaking fees.
3. We will focus on matches based on the indicated specialty and will not accept a second member with the same specialty.
4. We will foresee only the last, the shoemaker/member makes the shoe.
5. We will mutually shape the personalised and innovative last for best fit.
6. We will provide the member a global cluster-oriented association, that doesn't just add up but that compounds.
7. We will be efficient and cost-conscious to our association and to all.
8. We will be non-politically, non-commercially and non-profit oriented.
9. We will be independent and non-overnmental, government supportive when no COI.
10. We will be laying eggs, experienced as we are skipping the cuckling.
