

Unique or Added Value Features

Push-Button Control with Angle Guide

Rotates at the push of a button to any angle from 0-90 degrees. Interlocking gears allow the bed to remain fixed at any desired angle, providing a sturdy platform for inverted decompression.

Deluxe EZ-Reach™ Ankle System

Extended handle reduces patient's need for bending when securing the ankles. Made from aerospace-grade stainless steel with gravity lock.

Ideal for Multi-User Environments

The convenient one-button control eliminates the need for user-specific height or weight settings, so users can simply lock their ankles in and invert.

Stretching & Exercise Guide

Large guide on back of table bed features instructions for stretching in partial and full inversion as well as inverted exercises, such as sit ups and squats.

Built for the Benefits

Reliable, Trustworthy Performance

TUV Listed Label demonstrates independent certification to meet highest quality standards. Trust Teeter for unmatched quality with a **35-year legacy**, industry leading **2-year full warranty** and easy assembly with **90% of parts pre-assembled**.

Optimum Decompression Surface & Hand Grips

The upholstered bed surface is comfortable yet remains firm enough to reduce friction and allow for maximum body slide and decompression. Durable coated handles provide support while mounting and can be used to provide additional stretching and decompression while inverted.

High Quality Construction with Added Floor Protection

Scratch-resistant powder coating and triple-plated chrome. Oversized stable base features non-skid floor guards to reduce sliding on hard surfaces and protect floors.

Pre-Assembled Instructional Placards

Durable ABS plates are displayed on the equipment to provide every user with instructions on product use.
