

### Version 8:

#### *Vision's State-of-the-Art CAMA System Designed for Assessors, by Assessors*

Vision Government Solutions is thrilled to announce the launch of Version 8, the most state-of-the-art CAMA system on the market. Here's why:

#### SAVE TIME AND WORK FASTER

- **Do more with less** using a **Report Writer** that is **faster and more robust**:
  - Export faster to any format
  - Execute instantaneously with "see it while you build" features
  - Change your workspace with drag and drop fields
  - Easily make mass updates
  - "Friendly names" for ease of use
- We made the **industry's best sketch program even better**:
  - Add dozens more shapes
  - Easily flip sketches
  - Seamlessly convert or split shapes
  - Quickly add points and modify lines

#### UNBELIEVABLE FLEXIBILITY TO WORK THE WAY YOU WANT

- **Dramatic increases in user flexibility**:
  - Deeply customize grid configurations
  - Add, edit, or relabel any field
  - Reorder construction details
  - Personalize your 'my screen' dashboard
  - Use our new flexible card editor
  - *And more...*

#### DRIVE TO IMPROVED VALUATION ACCURACY

- **Land valuation improvements** such as unlimited property factors, new front foot land curve, free-form land adjustments, and up to 99 site indices
- **Greater building valuation accuracy** through sub area square foot pricing and 4x as many condo adjustments
- **Optimize the Income Valuation Approach** through GRM, GIM, band of investment calculation, and deduction for personal property
- **Enjoy our Sales Analysis module on steroids** with almost infinite statistics, embedded GIS, and dozens of new analysis features

Plus, **dozens** of our most-requested features such as Photo Sort, static databases, and more...

GOVERNMENT SOLUTIONS

Plus, up to a **50% reduction** in recalculation time, screen refresh time, & start-up time!

Version 8 is the **wave of the future**. Here's why:

**Constant Feature Releases**

v8 is the future of the Vision family, with constant new feature releases

**Immediate Impact**

Conversions are lightning-fast thanks to our new cutting-edge development process

**User Friendly**

A user-friendly interface dramatically reduces retraining time

**Save \$ with Cloud Options**

Cloud hosting option eliminates need for costly server equipment and IT support

More than 450 customers are already using Vision.  
**See it for yourself!**
