EQUINE PROFILE

AUTRY

Breed: Quarter Horse

Sex: Gelding

Age: Mid-Teens

Height: 15 Hands

Horsenality: Left Brain Introvert

Spirit Level: Low

Training Status: Groundwork - beginning

Background: Autry and one other horse were being sold at a household auction. People were allowed out in the pasture with the horses. A man approached Autry from behind and grabbed his back foot. Autry tried to take his foot away, but the man persisted. Autry double-barrel kicked the man in the chest. We bid \$50 to give him a chance at life.

General Observations: Autry was in poor physical health when we got him. He was having digestive issues and had a sore back. With the help of a holistic practitioner and massage therapist, he is doing much better. He was supposedly ridden, but we are going to approach his training from the very beginning. He can be a very friendly and calm horse. He is an absolutely stunning grulla.
