## EQUINE PROFILE

### OSCAR

Breed: Miniature

Sex: Stallion

Age: Approximately 6

Height: 36"

Horsenality: Left Brain Extrovert

Spirit Level: Medium

Training Status: Groundwork – Beginning

Background: The farm Oscar's owner rented was being sold. His owner made no attempt to rehome his herd of 6 and called us just days from his move-out date. Oscar had little to no handling and his mane and tail were matted solid with burrs.

General Observations: Oscar is very skeptical of humans. He is beginning to show an interest, but he has a long way to go. He can be somewhat aggressive when he feels confined. Gelding should improve some of his behaviors. One of Oscar's eyes has been injured, but he seems to be able to see out of it and it does not appear to cause him any pain. He and his herd mate, Harry, love to play "stallion games". They might be fun to have as a pair. Oscar will be gelded before he is adopted.
