

What Every Professional Woman Should Know

Professional Conference, Friday, Dec. 11, 7:30 am - 12:00 noon

Do you want to be successful in your career? Besides having a good preparation and a willingness to work, there is another "secret" ingredient: learning from others who have traveled the road before you. This conference will give you the opportunity to hear from successful women in different professions about how they got to where they are now.

The conference will also address specific challenges that women face in the workplace: making life-work choices, managing generational differences and professional attire and etiquette.

Join us on **Friday, Dec. 11**, for an all-morning conference that can help you be more successful in your career.
