Internship Position: Develop & implement skill building & fitness individual and group programming.

Responsibilities: Develop and implement evidence based fitness and exercise skill building activities for a variety of children 2-12 with special needs. Create several group activities/ongoing classes for children in therapy or those with needs greater than a typical class in the community. Help children understand and develop personal health and fitness goals.

Other Qualifications: Health professional CPR-Req., Understanding of common diagnoses- Cerebral Palsy, Autism, Spina Bifida, Osteogenesis Imperfecta, Central Auditory Processing Disorder, Sensory Integration disorder (not required but very helpful).

Typical Work Schedule: 28-40 hours depending on program requirements and interests

Application Process: Cover letter and resume. Criminal History check, CPR card, TB test, proof of professional liability insurance, contact information and preferred manner of contact.

Insurance: We don't provide professional liability insurance, but we require it.

We enjoy creating new programming and allow our interns to run with programming once developed and a target audience and framework are in place. We have a wide variety of talented and committed therapists and interns have a wealth of experience, personalities and styles to access.
