

November 30, 2018

Brothers and Sisters,

As many of you are aware, Management held four (4) information sessions the week of November 19, 2018 where they presented two (2) options for a schedule. The Union informed Management on four (4) different occasions that the Union could not support option #1, that the Union would not be presenting this option to our members nor should they be presenting this option to our members. They choose to disregard this and went ahead and presented it anyway.

As was announced during the General Membership Meeting held November 26, 2018, the Union will be looking into our options with regards to this. It was also unanimously decided that the Union will be putting pressure on the Board to look at Waypoint's Senior Leadership Team and the inefficient way Waypoint is being run.

We will be sure to keep you informed as this situation progresses.

In Solidarity,

Pete Sheehan
President, OPSEU Local 329

UNITED WE STAND!
