

JK-T781E Release Notice

Dear JACK members

Thank you for your support to JACK.

In order to meet the market demand, improve JACK product competition, integrated button holing machine JK-T781E will come soon.

JK-T781E is driven by servo motor, with features such as automatic presser foot lifter and automatic thread trimmer, suitable for knitting and woven fabrics like shirt, T-shirt and uniform.

Detail advantages:

1. integrated power saving

Integrated servo motor: low vibration, low noise

2. automatic presser foot lifter

Improve efficiency and reduce labor intensity greatly

3. operation panel

Function such as speed, presser foot lifter height are easy to adjust

4. beautiful stitches

Suitable for both knitting and wove, fabrics like shirt, T-shirt and overalls.

5. LED light

Convenient and comfortable for operation.

Thank you for your attention and support.
