

Route 400

MSRP: \$1,599

RIDER FIT TUBE COLORS

OVERVIEW

Repeating age old design conventions only gets you so far. So we developed a revolutionary frame design that we call **A R C**. The frame is designed to flex in specific areas which enhances performance and reduces road vibration. Introducing Route, suited for riders looking for a smooth efficient commute or a brisk ride down a gravel trail. Route offers the tailored look and feel of our Rider Fit Tubes. Riders have the ability to personalize the look and ride characteristic to suite their preference. We chose industry leading components to provide durability and consistent performance. Choose Route for your daily commute or your next adventure.

KEY FEATURES

- Shimano Tiagra componentry for smooth and reliable shifting
- Spyre disc brakes for excellent braking in all conditions.
- Selle Royal saddle for all day comfort.

A R C TECHNOLOGY™

A ctive Frame Construction™

- Patented frame design using **aircraft grade Aluminum**
- Bi-oval tubes offering lightweight and unbeatable comfort.

R ider Fit

- Four flex options of **Rider Fit Tubes** to be able to customize the frame to the rider and rider style.
- Seven color options and several patterns.
- **HS90 steel** which has the perfect balance of strength and forgiveness

C onnection

- The Route Series uses the Patent Pending **ST Quick Connect** system.
- Protected by a highly durable rubber sleeve called the **Mud Flap**.

Frames are available in 3 sizes. Medium, Large and X large
