The Expand-It ULTRA has all of the same size and functional features that are loved about Expand-It, but also has sides that allow the user to completely seal the unit with just a quick zip. The added sidewalls of Expand-It ULTRA tuck easily underneath the bag when hanging. Expand-It ULTRA's lightweight, efficient design reduces fatigue and stress. Flexible construction reduces wasted space in transport vehicles and at base facilities. The adjustable shoulder strap, padded handles and hanging grommets provide multiple options for carrying and deployment. Intuitive pockets on the Expand-It ULTRA exterior make color coordination of more than one pack quick and simple. Proprietary "double" pockets on the exterior keep private papers private.
