Armarda's associate CMSCG mobile satellite airtime grows significantly by 143% to 200,000 minutes in seven months

- **Growth strategy to target fast growing enterprise mobile satellite subscriber base**

Singapore, 19 August 2014 – China Mobile Satellite Communication Group Limited (“CMSCG” or “the Group”), is pleased to announce that its mobile satellite telecommunication services (“MSS”) airtime has grown significantly by 143% over a seven-month period to 200,000 minutes by the end of July 2014 in the People’s Republic of China (“PRC”). In comparison, the Group recorded over 81,000 minutes of MSS airtime for December 2013. Since the launch of its ‘1349’ mobile satellite SIM cards in April last year, the Group enterprise MSS subscriber base has remarkably strengthened from over 1,000 airtime minutes in the first month of launch in the PRC.
