XOXO

Boudoir Photography - A sexy new trend that's especially popular as a wedding day gift from a bride to her groom. Boudoir photos are usually taken wearing either just a little, or, well, nothing at all. They're hardly X-rated though, but rather elegant, classy pinup-glamour inspired photo sessions.

Imagine the look on his face when you surprise him with a little black leather album filled with sensuous pictures of the one he loves! Show him how smoking hot you are in classy lingerie and professional makeup! It may be a side he's never seen.

Brides, show off your beauty and give yourself an esteem boost with photographs that you can treasure. Do it for yourself too. Be pampered. Indulge. Love every minute!

Professional hair and makeup, a professional photographer and professional retouching equals some of the best portraits of yourself that you will ever see. Fun Tip! We often suggest that our clients schedule a night out after getting their portraits done, because they will look and feel amazing!

First Glance

The instant a bride and groom first lock eyes on their big day is incredibly romantic - whether or not it's done in private before you say "I do" or as you make your grand entrance into the ceremony.

A first session is when the bride and groom see each other before the wedding ceremony for a very special, private and intimate photo session.

Couples looking to uphold tradition are already reinventing first looks. From "first touch", in which couples hold hands around a partition, to creative ways for the bride to see the groom without him seeing her. There are plenty of ways to personalize this new tradition.

It is still entirely up to you whether or not you want to uphold the tradition of the groom not seeing the bride until the ceremony. If these photos are any indication, a first look is a beautiful way to start off your married life!

Trash the Dress

Also known as "Fearless Bridal" or "Rock the Frock", Trash the Dress is a style of wedding photography that contrasts elegant clothing with an environment in which the wedding dress is out of place. Generally captured in an editorial fashion, glamour photography style, your Trash the Dress photo session is an opportunity to creatively showcase your lifestyle and personality.

"Does my dress *really* get trashed?"

NO, your dress will not get trashed. Unless of course, that is what you're asking for! In that case, we are sure we can come up with some fun and unique ideas!

Fun Tip: Brides who are looking to keep, donate or pass down their dress but still want to do a Trash the Dress session, often buy a different, less expensive white dress and we trash that one instead!
