DISSEMINAT 133, CAN RIBÓ, LLINARS DEL VALLÈS

BY MILANA MALIAUKAITE
AND LAURA BEVAN

We welcome all our families!!! We are very excited to start the new school year in a new school. My name is Milana and I am excited to be an Early Years teacher. I am also pleased to welcome Laura, our classroom assistant and Irene- Bruno's assistant. It has been a pleasure meeting all of your children and we have already begun some exciting learning activities. Children were introduced to the Montessori method and were also able to explore 6 different corners such as nature, reading, creative, role play and construction.

We welcome our
preschool students.

BY HELEN SMART

Well done to the youngest primary kids for surviving the first week back after such a long time without school. It's lovely to see Valeria, Lluc and Cloe again and it's exciting to have four new members in our group: Alicia, Santi, Alguer and Ariadna. Welcome!

We also have two new teachers, Mercia and Adrián. This week we have all had a go at everything, including Chinese!

Mercia is our Science and Outdoor Explorer teacher

BY HELEN SMART

Welcome back everyone! There are ten of us in our class this year: you all know Josep, Nico, Adam, Noa, Sergi and Ana. But we would also like to introduce Biel, Gerard, Alonso and Joana! They are fantastic additions to our group!

We also have new teachers, Adrián for Maths and Mercia for Science and Outdoor Explorer! We also have a new subject this year: Chinese. We are looking forward to learning to touch type and do research and presentations on our computers in Topic this term.

Adrián is our new Maths teacher!

BY HARMONY RUTHERFORD

Welcome back to school! This week we have been spending a lot of time getting to know each other. We bought ME bags from home and greatly enjoyed sharing some of our favourite things with our classmates. We also set goals to focus on throughout the school year. Please help us to remember them!

Alex - I want to improve my handwriting. I will do this by completing a handwriting book at home. I will write slowly and not rush.

Adriana - I want to improve in talking in English. I will do this by talking in English with my parents and friends.

Marcel - I want to improve my English. I will do this by watching tv series in English and also using English subtitles.

Martina - I want to improve my ability to eat quickly. I will do this by looking at my friends plates during lunch and trying to eat the same speed as them.

Nahil - I want to improve in Catalan. I will do this by talking with my dad in Catalan.

Carla - I want to improve in maths. I will do this by doing extra maths work at home.

Jordi - I want to improve my handwriting. I will do this by completing a handwriting paper often and writing slowly and not rushing.

Claudia - I want to improve my English. I will do this by watching films in English.

Max - I want to improve my attitude. I will do this by remembering that small children watch and copy what I do, so I should show them a good example. I will also ask my classmates to help remind me.

BY MERCIA AND LANIER

It is a new start!

It is the joy in our hearts!

Since the Waters of March - a poem

A forest, a house at the end of the road,
where you find new friends
and you are never alone!

It's the ray of the light, it is life, it's the sun,
it is shining, it is welcoming, it's school, it's
fun.

The oaks, the birches, the knot in the
wood, the song of the birds and kids in a
good mood.

A jump, a fly, a trampoline time,
a run, a fall, it is nothing at all.

It's a book, it's a song, Chinese/Math
and Ping Pong, English or Català,
mind maps and bla bla bla :)

It's a start, it's hope,
with a mask and a smile,
we all know we can cope,
we will make it with style.

Reuniting with friends
since the waters of March.

It's the promise of life,
it's the joy in our hearts.

(This poem expresses the joy to be reunited with friends, teachers
and to be back at school. It is an adaptation from Waters of March by
Antonio Jobin).

Mercia and Lanier are the new K3 teachers.

Making friends and posing with style!

*A quick visit to the vegetable garden
and our new chickens.*

*It is going
to be a
great year!*

BY CHRISTOPHER SCHEMBRI

Welcome back!

A very warm welcome to all Key Stage 4 students, old and new. This year we are lucky to be divided into even smaller groups, enabling us to focus more on our strengths. Key Stage 4, or KS4, will be based in Room I upstairs. The room has a majestic view of the Montseny.

Our lovely view over the Montseny from the classroom window.

Throughout the first week, we have tried to get back into our routine. It has been difficult to come back to school and to deal with this new normality. However, I was glad to see that many of the students fell back into the old routine quite quickly.

Ethan helping a new student to get used to his work routine in Mathematics.

Andrea helping a younger student in Mathematics.

The students in Key Stage 4 are:
Year 10 - Andrea, Judit, Nuria, Irene, Eric and Ethan; Year 11 - Minerva, Gal·la, Adi and Alex.

Even if we have separated KS3 and KS4, it does not mean that they will never interact. In fact, sometimes, KS4 students make perfect tutors for KS3 students.
